

God of Thunder

(霸天雷神)

Book 03

Xiao Qian

(萧潜)

Story Description:

After being transported to another world, Lei XinFeng must struggle to survive. His village is settled in a forest, far away from any major cities.

The simple hunter's life is the norm. The village struggles every year to gather enough food in summer to store for winter.

However, this world is not as simple as it seems. After just turning 16 years old, his grandpa is ready to begin Lei XinFeng's LunLi training.

Just what is Lunli, and what past did his grandpa have? Will the new training help improve his current life, and what obstacles will the coming winter bring?

Original Story can be found here: [Link](#)

Chapter 1: The fury of An Shi Zi (1)

Hong Chen was furious, how dare he ignore an elder of the outer sect, although he had been running in and out of Hong Tong, and the times he returned can be counted by fingers, but it isn't any reason to ignore his presence, are these bastards rebelling? Hong Chen did not speak, he merely pounced out and slapped the face of the person in charge.

That guy immediately became dizzy due to the slap and even said repeatedly "Ah? Ah! Ah ah ah ah.....you.....you fucking hit, hit....me! Men....men....enemies are attacking!"

Before he could finish his shout, Hong Chen slapped him again, causing his face to swell. The strength of a hand of a real Mi Lun master with a real ring body was no joke, his slap made that guy see stars, his ears ringing. A few of his underlings charged forward and supported him, none of them daring to catch Hong Chen.

Hong Chen did not wait for that guy to shout again, the sign in his hands were raised to his face as he said "You fucking look carefully, still shout what enemy attacking, enemy your fucking attack!"

That man tried his best to widen his eyes. A piece of identity sign for an outer sect elder, all the outer sect elders have a real ring body and are at least a Real Mi Lun master, not something a tiny ten thousand Lun master like him can offend, although he was still dizzy from the two slaps, he was still capable of discerning, the sweat on his forehead rolled down his face, he was shocked and was unable to understand how this man in front of him was an outer sect elder.

This was a hierarchical society, if one had offended another of a higher position, the only result was death, of course, if you had strength then there would be a more civilized compromise, but it was obvious that that guy did not have the strength to resist the elder.

Hong Chen said coldly "What's your name?"

That man raised his swelled head which was similar to one of a pig's that was covered in sweat and said "I, I am responsible for law and

order.....Tian Bao Cheng, ten thousand Lun master...”

Hong Chen said “Tian Bao Cheng, are you retarded, or stupid? So you not have fucking eyes!” Hong Chen harshly insulted him, although he did not continue to hit him, but Tian Bao Cheng had been scolded very badly.

Xinyao said softly “Brother, let’s go home.” The little lady finally knew that this place was entirely different from Tiger Cliff Castle, where she had never seen someone attempt at robbing.

XinFeng nodded “Okay, Yaoyao, let’s go back. Uncle Du, we will first be going back.”

Hong Chen hurriedly replied “Wen yan, you go accompany them back.”

Bao Cheng did not know XinFeng was the murderer, which was why he did not attempt to stop them, of course, even if he knew, he would not dare to do so now.

XinFeng carried Xinyao back.

Hong Chen did not leave, after all the deaths of preparatory disciples was something he had to take care of “Tian Bao Cheng, see those people? Bring them back. How useless, preparatory disciples actually stealing money from a six year old, fuck.....who is the one teaching them? Being me to him so that I can hit him!” He could not help but scold again, this was too shameful.

Tian Bao Cheng was depressed, it was those preparatory disciples’ thieving habits that caused him to be slapped, and after this incident, he may not be able to keep his position of person in charge, this position was extremely lucrative, wanted by man ten thousand Lun masters, he said harshly “Catch them back, catch them, fuck! I’ll have to do it myself!” He prepared to use these guys who were still alive to vent his anger.

A preparatory disciple suddenly shouted “Anke died, Anke died, you’re all doomed.....Anke is the great grandson of Elder An of the inner sect! He has been killed, you cannot run!”

In front of Bao Tian Cheng was countless stars, he quickly walked to the two corpses, turning them around, he inspected them. Suddenly, his face

became the color of dirt, this was really Anke, he knew about him, his great grandfather was the Inner sect's famous An Zi Shi elder, this guy was very famous and had great influence, controlling many people, he was a mighty man.

Hong Chen was conflicted, of course he knew An Zi Shi, he was second only to Xi Quan's existence, a rather tyrannical existence in the inner sect, he didn't expect Xin Feng to have killed his great grandson, this would spell trouble.

Tian Cheng Bao was also stupefied, the murderer had left, however, Du Hong Chen was still here, he wasn't scared that the murderer would escape "Elder, this matter, I suppose....elder will be accountable."

Hong Chen was extremely troubled and did not expect Tian Bao Cheng to threaten him, raising his hand he slapped Tian Bao Cheng yet again, venting his anger. Grabbing his collar, Hong Chen swirled him around, cracking noises resounded, scaring the people at the side.

"Are you fucking threatening me? Are you? If you want to die, I can help you, ah? Speak! Are you fucking mute!"

Hong Chen was also dizzy due to hitting too much, allowing the person he was slapping speak, if that person was able to, then it would be weird.

Tian Bao Cheng's tears and snot flowed freely, he finally understood, not only An Zi Shi can have his life, this elder in front of him can also take his life, he had been too stupid, to anger a elder, he was merely asking for a beating.

Able to hit a ten thousand Lun master until he cried, Hong Chen is indeed amazing.

Pushing Tian Bao Cheng forcefully onto the ground, Hong Chen turned to leave, since they had already offended An Zi Shi, the elder of the inner sect, then all he needed to do was to find another inner sect elder,

Tian Bao Cheng looked teary eyed at the leaving Du Hong Chen, he had already been beat to the point where he was terrified, not daring to stop the leaving Hong Chen anymore or even make a noise, if Hong Chen had

continued to beat him, he would have played dead, letting his subordinates carry him back.

.....

Peng!

A Six edged table collapsed, a big old man with a ashen face said “Who killed my great grandchild! Tell me!”

Tian Bao Cheng covered his face he had been hit again by An Zi Shi, this time harder, his flesh mangled and his face full of blood. He said shivering “He was killed by a young man, as for who he is.....I do not know....ah, don’t hit me, don’t hit me.....I know how to find that young man!” He covered his face, stepping backwards non stop.

An Zi Shi was furious, his arm already raised but not swung yet, he said coldly “Speak!”

Tian Bao Cheng said with agony “Next to the young men was a elder from the outer sect, I already checked, it was Du Hong Chen the elder from the outer sect!”

An Zi Shi knew everyone from the elder class, he said rather shocked “Du Hong Chen? When did he return to Hong Tong City?” His facial expression changed for the worst, a outer sect elder was so arrogant to challenge him “Men, go invite elder Du Hong Chen!” After all he was a expert of the elder class, how would he be afraid of Hong Chen, even his position was higher then Hong Chen.

Immediately men left to invite Hong Chen.

Quickly more men came forward to report, An Zi Shi’s underlings managed to have found Lei Xin Feng.

An Zi Shi said shocked “The guests of Elder Xi Quan?” He furrowed his brows, he held authority in Hong Tong, he could do whatever he wanted for most of the time, but there were a few people feared, one of them was elder Xi Quan, it wasn’t because Xi Quan had 3 real ring bodies, but the influence of Hong Tong, Xi Quan’s was much larger.

One of his subordinates said “That younger is called Lei Xin Feng, he also has a sister called Lei Xin Yao, they came here with a old man. It is very obvious that Xi Quan value them very much, as they live in the building for very important guests.

An Zi Shi nodded “Good, very good, big elder....very amazing? Daring enough to kill my family, hmph, I don’t believe that he would start a war with me for a junior.”

After about half an hour, someone came back to report “Hong Chen is at Xi Quan’s.”

An Zi Shi said blandly “Did you invite him?”

The man answered “I did, but Du Hong Chen said he was busy, and....he won’t come right now.”

An Zi Shi laughed angrily “Good, haha, very good, treating me like dirt.....haha!”

A thousand underlings, each of them bowed while holding their breath, none of them daring to speak or move, everyone knew that An Zi Shi was like a volcano, not knowing when he will erupt.

In anger, An Zi Shi was turning in anger, turning once, turning twice, He suddenly noticed Tian Bao Cheng, his anger erupting, he kicked Tian Bao Cheng, causing him to shout.

The more he hit, the more angrier was An Zi Shi, gradually his stomps did not have any large difference in strength anymore, Tian Bao Cheng also felt something was wrong, he thought at first An Zi Shi was only venting his anger and that if he withstood it, at most he would be kicked until he looked like a pig’s head, but his arm suddenly gave a ‘Kacha’ sound and he understood, An Shi Zi had lost control, he suddenly charged out, hugging his arm as he silently ran out.

“Trying to escape?”

An Shi Zi had entirely lost his reasoning, suddenly throwing out a fist, a golden glow appeared and smashed onto the body of Tian Bao Cheng, 2 real ring bodies, a Real Mi Lun Big master’s attack wasn’t something Tian

Bao Cheng could block, in an instant, his body exploded.

At that moment, An Zi Shi's mind cleared, he knew it was wrong to do so, but under his anger, he did not care so much. An Zi Shi said blandly "Clean it up!"

As some underlings cleaned up, An Zi Shi's anger dissipated "I heard you also caught some preparatory disciples? Were they the ones with young master?"

Someone answered "Yes, those few people are currently outside."

An Zi Shi said "Bring them in."

.....

Oh look, another beautiful Cliff to your right.

Chapter 2: The fury of An Shi Zi (2)

Those preparatory students were brought in by men who had pale faces, they who still were tied at their hands and feet, were thrown thrown in as though they were rubbish.

An Shi Zi said “Tell me the whole process, if anyone lies, hmph, one sentence....I’ll chop of one leg, two sentences I’ll chop off two.”

Those few preparatory disciples were terrified, quickly, they spilled out everything that had happened, not daring to hide anything, after all, this incident happened too suddenly, the leader was An Shi Zi’s great grandson, this guy was used to being tyrannical, snatching the money purse of a little girl was normal, not something serious at all to them.

An Shi Zi said “Just for this, they killed the young master?”

Those few people nodded.

An Shi Zi suddenly said “The young master had died, how are all of you alive?”

Those few people trembled violently, causing them to be incapable of speaking and they could only look pleadingly at An Shi Zi.

An Shi Zi said flatly “Men, drag them out and hit them, you are not allowed to kill them, but if they don’t die, you all die!” With his order, all his underlings were stupefied, what did he mean, not allowed to kill, if they don’t kill them, then they die? What the fuck is this order?

But this was An Shi Zi’s order, no one dared to defy it, immediately those few people were dragged out, they had decided that they would first beat them half to death and do as the situation calls later.

An Shi Zi turned a few more rounds and wore his skin coat, bringing a few underlings with him, he left from the huge door.

.....

After reaching home, Xi Quan invited them to his living space, which was a 7 floored building with a huge garden, when Xi Quan found out

XinFeng killed An Shi Zi's great grandson, he immediately ordered that XinFeng and Xinyao to be brought back, he did not dare to leave the both of them in the important guest's building, if these two children were killed by An Shi Zi, then that would be terrifying.

After asking about the incident that happened, Xi Quan was also angry, these rascals were too daring, robbing in broad daylight in the streets, their target was even a little girl, he said "It's fine, the both of you can first stay in my house, en, I'll let someone bring you there."

XinFeng left with Xinyao.

Hong chen said "Elder, what do we do now?" He was scared in his heart, he was a outer sect elder, against a inner sect elder that had strength and influence that greatly surpassed his, his future was entirely black and he even had a thought of leaving Hong Tong, An Shi Zi's revenge would mean his death, he who didn't have the strength of elder Xi Quan, cannot stop An Shi Zi's revenge.

Xi Quan said "Don't worry, you can join our faction, I don't believe that An Shi Zi would be so daring." He said as he took the opportunity to incorporate Du Hong Chen.

(Putty: the faction is used can also be sect, I'm highly doubting that people have sects in sects, so I'm leaving it as Factions.)

Hong chen's face changed, he had been trying his best to create a faction of his own, but now if he don't join the faction of Xi Quan, he would be in trouble. He said gritting his teeth "Big elder.....okay, okay!" He wasn't too willing.

Xi Quan laughed loudly "Don't worry old brother, I won't mistreat my own people."

Although Hong Chen wasn't content, but at this point, he must make a choice, since he was a Real Mi Lun master, his strength was counted as proficient, even if he left Hong Tong's area of influence, with his strength he still can get by pretty well, but after managing this place for so long, he did not want to abandon everything and leave.

A man came to report "Big elder, inner sect Elder An is here."

Xi Quan said "Please come to the living room, Old brother Du, you come too, this matter must be solved eventually."

The two of them brought a number of underlings with them and quickly reached the large living room, it had been a long time since Hong Chen seen An Shi Zi, he had been venturing out a lot, which is why his influence are all outside while it's rather weak in Hong Tong City.

An Shi Zi wasn't very young, he was bald while his face filled with a prickly beard, his stature reaching 2 meters. It was said that this guy had barbarian blood in his veins, he had a extremely sturdy look, wearing a black skin coat, his eyes similar to one of a falcon's, staring at Hong Chen, a feeling of hatred pouncing towards them.

Xi Quan said "Elder An, how are you so free to come here? Is there something wrong?"

An Shi Zi said "Not bad, I indeed am here to find big elder about something."

Xi Quan said "Please sit and tell me, what's wrong?" His face had a expression of cluelessness.

An Shi Zi did not sit but stood in the middle of the living room "I am looking for a young man, I heard that he is living in your house."

Xi Quan said blandly "I apologize, there isn't the young man you are looking for in my house." He already understood that it was hard to be nice to An Shi Zi, which was his why his words was not polite anymore.

An Shi Zi said "Is that true, I am here to remind the big elder, that young man is called Lei Xin Feng and he also has a sister, called Lei Xin Yao, I want this pair of siblings, I wonder if big elder is willing?"

Xi Quan said "An Shi Zi, what do you mean?"

An Shi Zi replied "These two little fellows killed my great grandson, does Big elder want to shelter them?"

Xi Quan said "Shelter? Haha, how interesting, your great grandson

is.....just dead, what do I need to shelter? If I was there, he would similarly be killed by me!"

This was Hong Chen's first time seeing the big elder's mightiness, not even taking notice of a inner sect elder, directly speaking his thoughts.

An Shi Zi was fuming to the point where he shook, gritting his teeth, he said "Xi Quan! You're great! Great! You....."

Xi Quan interrupted him "I am always great!"

An Shi Zi was itching to use his hands, wanting to pick a fight. Xi Quan said blandly "Just you and you dare to fight?"

Hong Chen took a step back, not wanting to be caught up in the fight of these two.

An Shi Zi suddenly calmed down and said "Good, I'm also very good, you watch out, I don't believe that you.....can keep sheltering them!" He turned to leave, bringing his gang of underlings with him.

The both of them were against each other now, without any chance of returning to their peaceful relationship, this was also normal, as how would Xi Quan dare to hand over Lei Xin Feng and Lei Xin Yao, unless he was suicidal. With the temper of Lei Bao the old man, if someone touched his grandchildren, then most likely Hong Tong's whole area of influence would be doomed.

Hong Chen smiled bitterly "How is this good?"

With these two men's strength, if they are on bad terms, then the whole area of influence of Hong Tong would be in turmoil. Then if they fought, then no one can guess how many would die.

After An Shi Zi left, Xi Quan's face sunk, he had heard the threatening tone in An Shi Zi's voice. He contemplated for a while and immediately gave orders for his underlings to prepare for battle, the most important thing is that the siblings are safe, if not then it would be a disaster.

.....

XinFeng did not care what happened outside, even if he had a chance to

do over, he would still kill those few. Settling down Xinyao, he started to practicing in the room.

Within these time, XinFeng had been learning the contents of the star Python records, diligently building his foundation, which was why his training speed slowed down, but even so, he still could improve by hundred of luns everyday, this speed was terrifying already.

Using this few minutes, his Lun Li had increased by a few hundred, after that he started to practice Lei Lun Li, diligently purifying Lunli while starting to practice some secret methods in the Star Python record, this was the condensed knowledge of the old man Lei Bao, most of them were for boosting a person who just started practicing.

This helped Xin Feng build a great foundation, he had a lot of patience and carefully polished his Lei Lunli, if in the practiced Lei Lunli in the beginning had any problems, after his training, those problems had been fixed.

If a ten thousand Lun master wanted to become a Mi Lun master, then one of the requirements to do so was that one had to have at least ten thousand Lunli, only then will one have the possibility to do so, of course, this was only one of the requirements, to level up to a Milun master, there are other requirements, which were written down in the Star Python Record, when bored, XinFeng would mull over it.

After about half a day, XinFeng completed his training. At that time, a knock was heard, it was Xi Quan that wanted to visit the.

Xi Quan and Hong Chen walked over, XinFeng walked in front to pay his respects “Grandla Xi, Grandpa Du.”

Seeing XinFeng’s relaxed look, Hong Chen was astounded, a disaster was going to happen but this fellow was still ignorant.

Xi Quan laughed “Are you used to it, hoho, you’ll live here only for a while and leave after that.”

XinFeng nodded “En, living here is not bad.” Actually he knew why Xi Quan was here, however, he did not care, there was his grandpa backing

him, he wasn't afraid.

Xi Quan said "That's good, ah Feng, don't go out recently, just play at home."

XinFeng said "That Elder An came?"

Xi Quan laughed "It's fine, with me here, they won't dare to do anything, as long as you don't go out, it is still safe at home, wait until your grandpa is back, then everything will be safe."

XinFeng nodded "I'll be troubling Grandpa Xi." He needed to say his thanks, actually he knew that he killed a great grandson of a inner sect elder and that it'll be troublesome, but he did not care. He believed that if grandpa was here, then no one would dare to touch him and his sister, because grandpa was mighty, capable of flying up to the sky with a charge, a expert like him was able to protect the both of them.

Xi Quan felt rather at ease, he noticed that Lei Xin Feng was not a child that knew what was important and what was not, he said "Good, if you want to eat anything or use anything, just call those servants, no need to be modest, understand?"

XinFeng nodded "Okay, we will not leave the house for these few days, don't worry grandpa Xi."

Only then did Xi Quan leave with Hong Chen.

At that night, XinFeng slept under Xinyao's heatable brick bed, anyways the ground was cushioned with thick beast skins, adding in the warmth from the Heatable brick bed, he did not feel cold.

For the next 2 days, XinFeng slept in Xinyao's room, but he did not dare to slack, on the third day, XinFeng noticed some activity outside the room and he couldn't help but laugh coldly, when he really could not bear it anymore, he stood up and gently woke Xinyao, signaling for her to not make a noise.

He carefully hid Xinyao inside of the large wooden closet and then tidied up the blanked, so that when seen, one would assume that someone was under it sleeping.

Chapter 3: Consequences of Loss (1)

Within these 3 days, An Shi Zi prepared his troops, his son wasn't in Hong Tong, but in a large sect from another place. His son was only a Mi Lun master, he was not counted as mighty but his master was a True Lun Yin master with 3 True Ring bodies, a existence similar to Xi Quan, which was why he wanted to have his son's master to help them with keeping Xi Quan in line.

At that moment, An Shi Zi would then kill Lei Xin Feng and Lei Xin Yao himself.

When An Shi Zi's son heard of this news, he almost died fainting, he only had one son. He wanted to explore outside but his strength was not enough to protect him, which was why he placed his son at An Shi Zi's place, but he unexpectedly died. He immediately found his master, true Lun Yin master Chen Zhi, without caring about his fortune, came back for revenge.

After receiving a big gift from his disciple, Chen Zhi promised to come along with An Danai back to Hong Tong, as An Danai had invited his master, he had opened a Lun Spot and used the ancient Lun passage.

Before waiting for Chen Zhi, An Shi Zi could not resist the urge to fight anymore and on the third day, he had brought a team of humans and horses, within the team was Mi Lun masters and 7-8 ten thousand Lun masters in an attempt to sneak attack hoping to kill Lei Xin Feng and Lei Xin Yao, thinking at Xi Quan could not do anything to him after the deed had been done.

There were large amounts of men protecting the house of Xi Quan, even Hong tong and his disciple was living at the huge yard, the same building at where Lei Xin Feng was residing.

After 3 days of carefully collecting information, An Shi Zi found out the room where Lei XinFeng and his sister rested and on that night he had attacked.

An Shi Zi practically brazenly attacked, which is why he did not bother

to conceal the noise. XinFeng hid Xinyao and also hid next to the cabinet silently waiting, a dagger in his hand.

Hong!

As An Shi Zi's underlings tied up Xi Quan's guards, he charged without caring as he remembered the report he had been given about the whereabouts of Lei Xin Feng, he charged from the window and smashed the heatable brick bed twice with his hands, as the hong sounds resonated, the entire heatable brick bed collapsed, if there was someone on it, then that person would definitely be smashed into meat paste.

Success! As this thought ran through An Shi Zi's mind, he noticed something wrong and overturned the heatable brick bed only to realise that there wasn't anyone on it, without thinking too much, he slammed at wall.

A large hole appeared on the wall, using that hole, An Shi Zi charged into the living room looking at the room where Lei Xin Yao was in, with a cold smile, he rammed towards it.

With a crashing noise, a man came from the outside and shouted "How daring! Attack!"

The two of them attacked, this man was Du Hong Chen that had arrived, An Shi Zi's speed was too great, as Hong Chen was a bit late, he followed An Shi Zi's method and smashed open the wall that was blocking him.

After a few attacks, Hong Chen realized that he was no worthy opponent though he was still able to block a few attacks, he knew clearly that he had already lost, he whistled without hesitation.

An Shi Zi was furious he shouted "Bastard, go die!" At that moment, his whole body was covered in a grand gold light.

Hong!

Xi Quan had also smashed his way in, he was similarly furious and roared "An Shi Zi!"

The two of them collided together.

Xin Feng hid next to the cabinet, hearing the string of crashing noise along with Xi Quan's roar, the next moment a earth shaking sound that caused the whole house to shake violently, as if an earthquake. He was shocked, this was the first time he felt that he was so little and also the first time he had this want to become stronger, without strength, he could only hid at the side, incapable of protecting his family.

This fight between An Shi Zi and Xi Quan caused him to suffer, looking at Xi Quan and Du Hong Chen's taking an attacking form, he knew that he could not go on recklessly anymore, he laughed coldly "I don't believe that, you can keep guarding....." He suddenly rammed to the wall the back of him creating a large hole which he left by.

With a whistle, An Shi Zi retreated with his underlings.

Xi Quan laughed coldly "You will regret in the future! Men!"

A underling came and said "Great elder!"

Xi Quan said "No need to follow them, all of you go guard the yard!" He did not want to attack them as they retreated, he only wished for his men to continuing to protect Lei Xin Feng and his sister, other matters are not important.

Du Hong Chen ran into Xinfeng's room and surveyed it "Feng isn't in the room, old brother, someone within you underlings betrayed you, if not then he would easily find out Feng's room."

Xi Quan nodded "En, it seems so, since he had first smashed in Feng's room."

At that moment, Xinfeng carried Xinyao out of the room "Have they retreated?"

Xi Quan nodded "Yes, luckily you were not in the room, if not....then it would have been too late for us to help."

Xinfeng walked into his own room and felt shock, the whole heatable brick bed was collapsed while the beast skin on the group was in pieces,

the floor had multiple cracks and the wall had two large human shaped holes.

Xi Quan said “This guy truly had Barbarian blood in him, attacking and leaving without hesitation.” He knew that he would not chase him, if he wasn’t here to guard and a few more experts came then XinFeng and his sister would truly be in danger.

XinFeng became more vigilant, a single attack of his opponent was something that he could not even block, if he had to face him, then he would surely die, no matter the strength of grandpa, he could only get revenge afterwards, but what was the use of that.

Xi Quan thought for a while and said “Feng, these few days you and your sister will live with me, I don’t believe that he would dare to attack me directly.” He was betting on that he could hold on till the old man Lei Bao come back, at that time everything will be settled. He could even borrow the old man Lei Bao’s power to kill An Shi Zi and take his underlings and influence, it was two birds with a stone, the only condition to fulfill this was to keep Lei Xin Feng and his sister alive.

As long as these two siblings were alive then the last victory would be Xi Quan’s.

Within these few days, XinFeng and Xinyao moved into the main building, the main building was extremely robust, it was impossible for An Shi Zi to enter without using the door or the windows.

The security was extremely tight, although Xi Quan was stronger than An Shi Zi, Xi Quan could not kill him instantly. Lei Xin Feng and his sister was his weakness, as long as An Shi Zi was able to grasp this weakness, then Xi Quan would lose. But after this attempt at sneak attacking, Xi Quan already understood.

Xi Quan was actually lying, he said that he would bring the siblings to his room but actually he brought them secretly to a hidden room made for training, which was also his underground room.

Xin Feng was rather reluctant but he understood that to keep his life, then this bit of unfairness was worth it.

The hidden room was very small, only about a dozen square meters. Xi Quan made his men place thick furs on the ground and also bring bedding and short tables along with daily necessities.

XinFeng was greatly shocked by this experience, the want to grow stronger floated in his mind. He finally understood that relying on the strength of his grandpa was not enough, he can only be truly strong when he relies on himself, he needed to start practicing.

Xinyao also noticed that something had gone wrong, which was why she was extremely obedient.

Xi Quan had already exhorted a few of his underlings to search for the old man Leo Bao, he did not know where did the old man go, but the old man Lei Bao had said that he would come back quickly when he left.

.....

After 23 days, Chen Zhi brought his disciple An Danai had rushed over, at that moment, An Shi Zi's overall strength increased greatly, with Chen Zhi here to take care of Xi Quan, even if he cannot kill him, they can at least make him immobile, at that moment Lei Xin Feng and his sister would be like pigs in a slaughter house, there to be killed by him in any way possible.

They rested for a day as An Shi Zi urgently invited Chen Zhi, this time he would not let Lei XinFeng and his sister off, he also wanted to suppress Xi Quan or even better, kill him, if not then a grave injury would suffice, he could then chase Xi Quan out and take the position to Great elder, taking this influence.

This time they need not attack sneakily, they would just charge into Xi Quan's yard and attack the guards there and subdue them, if they fought back vigorously then they would just be killed.

An Shi Zi practically brought all his experts, which were all at least a Ten Thousand Lun master that amounted to over 70 people and charged into Xi Quan's yard.

Xi Quan was sitting in the yard while the main building was behind

him “An Shi Zi, do you plan on destroying Hong Tong.

It was difficult for practicers to leave offspring, An Shi Zi had one son and one grandson, his grandson died ten years ago, leaving only one great grandson, after being killed by Lei Xin Feng, his line would be severed, with his temper, he wanted to kill everyone that was involved.

An Shi Zi laughed coldly “In Hong Tong, only a few are in power, amongst them you belong to the top, I have tolerated you long enough since you have decided to shelter those two little bastards, then you shall pay the price!”

Xi Quan said “Oh, then what you mean is that you are against me?”

An Shi Zi replied “If that’s what you think then, it isn’t wrong, I believe that you cannot stop me today.”

Xi Quan said “You called for help? Shouldn’t there be an introduction?”

An Shi Zi was smug, he was capable of finding a true Lun Yin master with 3 true ring bodies, which was quite a feat “Of course, this is the master of my son, Chen Zhi true master, he is a True Lun Yin master.”

Chen Zhi appeared amongst the men and smiled blandly “I’ve heard so much about Xi Quan True master from Hong Tong, we have finally met.”

Xi Quan lazily waved his hand “Me too, me too...” His tone was without a bit of respect, his expression halfhearted.

.....

Chapter 4: Consequences of Loss (2)

TL Notes: Big elder -> Great elder & Real Lun master -> True Lun master

*

Chen Zhi was instantly angry, with his status and position, no matter where he went he was the focus of the crowd, no one dared to show disrespect, but he ever expected that the great elder of Hong Tong had shown him a face of belittling, casually treating him as though he was a nobody. He was displeased in his heart and fumed silently, giving a fake smile, he said "True Master Xi, how courageous!"

Xi Quan did not stand and said "If a guest had come to my door, then I of course would be polite, but are you my guest!"

An Shi Zi felt as though there something was wrong, Xi Quan was too confident, along with the fact that when they first entered, there was a few guards but no more after that, it seems that there was a problem.

Chen Zhi was also thinking of the same thing. Similar to himself, Xi Quan was also a True Lun Yin master, there wasn't a reason to be so proud, which was why he tried speaking "Alright, I am not your guest, but I guess you too, don't want to make a enemy?"

Xi Quan said blandly "Trash talk, you are not my guest so why are you here."

An Shi Zi had finally lost his patience, his original temper was already explosive "Stop the pointless chatter and hand out though two little bastards!"

Xi Quan slowly stood up and made a confused face "You want two little fellows?"

An Shi Zi said "If you hand out the two little bastards, then maybe we will still have chances of reconciliation, if not then don't blame me for being unfriendly."

Xi Quan turned his head around "Feng, you come out."

A young man and a young girl came out, behind them was a humble looking man, the three of them slowly walked to Xi Quan's side.

Upon seeing Lei Xin Feng, An Shi Zi's eyes turned red "Was it you who killed Anke?"

Chen Zhi scanned Lei Xin Feng and Lei Xin Yao uninterestedly, but his nostrils instantly flared and could not help but say "Single Lun attribute? Wu, Single lightning attribute.....e, Life Lun! Single attribute....." He rubbed his eyes, this was too unbelievable, two single Lun attributes had suddenly appeared, it was like two pieces of gold that had appeared within sand.

An Shi Zi hadn't reacted in time yet "What single Lun attribute?"

Chen Zhi pointed at the two children and said shocked "Look at these two children carefully.....they are all fucking single attribute luns!"

Only then did An Shi Zi notice, these two children had terrifying potential, but this thought was immediately thrown to the back of his head, no matter their potential, they were the killers of his great grandson, so what if they were single Lun attributed, he was going to kill them anyways.

"So what? I won't let them go just because they are single Lun attributed!"

Chen Zhi was very hesitant, who was he kidding, people with a single Lun attribute was very hard to find, but the problem was that he was invited by An Shi Zi, although he had other ideas in mind, but it wasn't good too cause An Shi Zi to loose face, after all he was a true master, although he and himself had a difference of a level, but it wasn't very much of a difference, at least not a difference of a realm, if it was the difference of 3 true ring bodies and 4 bodies then it wasn't merely a difference of a level.

Xi Quan said "Old brother, you should understand now."

The old man standing next to Lei Xin Feng and Lei Xin Yao also nodded, a slight smile appearing on his face, a smile of ridicule "En, those that

wants to kill my grandson and granddaughter, old brother, if they were to be dead, would it be troublesome for you?"

Xi Quan nodded "Yes, my headache for him isn't only for a day or two, a guy with the blood of barbarians, his strength is tough while his personality tyrannical, I can't be bothered to bear with it again anymore, it would be good if you killed him."

The old man said "Alright, it's been a long time since I killed, today I'm opening shop." He then continues "Protect Feng and Yaoyao, leave the rest to me, en, let your men surround them and don't let them escape."

Hearing the old man's words made An Shi Zi furious, taking a step in front, he said "Where did this crazy old man come from, if you want to die....I'll grant that wish for you."

On the old man's face was a wide smile, he was extremely calm as he indifferently "Kiddo, you want to kill my grandchildren, and I as the grandfather, shouldn't meddle?"

An Shi Zi laughed loudly "Good, very good, you three grandfather and grandchildren.....are just right to be killed for my great grandson, haha, I won't let you die too soon, I'll will slowly give you the taste of death bit by bit, I will make you regret coming to this world....." He said gritting his teeth.

The old man was still very calm "O? Really?"

An Shi Zi nodded "Brother Chen, please help me hold back Xi Quan....leave the rest to me! I want to crush them bit by bit!" He cracked his fingers, creating a string of Ka da Ka da sounds.

The old man could not help by smile "Feng, killing is to kill every last person siding to the opponent, so that.....no one will even know you killed them, if not it'll be troublesome, look....you killed a small guy and how his family members ran out, and you cannot win them, it is truly troublesome, remember in the future, if you want to kill then don't let anyone find out, if not then you'll have to kill everyone they have."

XinFeng was momentarily stunned, at that moment where he killed

Anke, he wasn't in control at all, which is why he killed, but if it was his past life's temper and personality, he definitely wouldn't have killed Anke.

Xi Quan smiled bitterly, this was the style of the demon, if he wanted to kill he would kill everyone, not leaving any one behind.

An Shi Zi scolded "Looking for death!" He could not control himself any further and pounced.

Chen Zhi also pounced towards Xi Quan, but who knew Xi Quan would take a step back and protect Lei Xin Feng and Lei Xin Hao, he had never thought of wanting to fight, whistling, he summoned many men who surrounded the underlings An Shi Zi brought.

A eye piercing light shone followed by a sound of thunder, causing everyone to become dizzy and blind momentarily.

A lightning ray and a human shadow, a sudden sound of two lightning strikes and two pitiful cries, everything was too fast, no one could tell what had happened.

As the radiance disappeared, on the ground was two humans while the old man was still at his original place, he said "With such weak training, you dare to bare your teeth at this old man?"

The old man had beaten down two experts with two slaps of his hand, it wasn't that they were weak, but rather it was that the old man was too strong, their difference was like heaven and earth, entirely incapable of being compared.

An Shi Zi had the blood of barbarians in him, his skin corse and meat thick, if it wasn't for it then he would not have dared to challenge Xi Quan, his defense terrifying, even experts that has a higher level have difficulty harming him, but he wasn't able to block the old man's slap, this slap actually caused his whole body to convulse, as if his bones were also slapped, his body felt like it was on fire as he laid paralyzed on the ground.

Chen Zhi was also lying on the ground paralyzed, his eyes full of disbelief, his mind was like a puddle of paste, all his life he hadn't be

slapped to the ground before, this was too scary and weird.

The men brought by An Shi Zi was all shocked silly, their two most powerful leaders had been flipped to the ground, seeing this sight made them all terrified to move.

Xi Quan was also in a similar state, he was too, scared, originally he assumed that as the old man was going 1 against 2, the fight would take a while, but who knew that with only one attack, the two men would fall to the ground. This was too exaggerating, he knew the old man was very strong, but he didn't know he was so strong to this point.

The old man continued his lecture "Feng, when fighting, if possible....end the enemy's life with one attack, if you are confident, you can do it like me, get them on the ground and then, you are free to do whatever you want."

Hearing his words, a chill ran down XinFeng's back, he suddenly noticed that his own grandpa was rather evil, however, he did not have any opinions.

Xi Quan then became the fox borrowing the tiger's ferocity "Will you surrender without a fight or hold on to the end?" Using the prestige of the great elder, how would the underlings of An Shi Zi continue to resist, one after another surrendered, among them was the son of An Shi Zi, An Danai.

(Putty: it's an idiom originating from this story where the sly fox walks in front of the fooled tiger who scares all the other animals.)

The old man slowly walked tot the side of An Shi Zi and Chen Zhi "What did you say? Something about.....wanting me to try the taste of death, en, also.....crush us bit by bit? Hoho, I like to.....do what other people says.

Xinyao said softly "Brother, let's go back."

The old man said "Don't go back first, Yao Yao come here."

XinFeng looked worriedly at Xinyao as he brought her to the old man, he said softly "Grandpa, Yaoyao is still young, don't show her these kind

of acts yet.”

The old man shook his head and sighed “Alright, I only wanted her to know that if the both of you were to fall into their hands, the consequences would be very heavy.”

XinFeng nodded “I know, I know.”

Xi Quan said “Old brother, how do we take care of them?”

The old man said “Cripple their training first, for the rest, you shouldn’t need me to remind you, I don’t hope that their alive.”

Xi Quan understood that the old man would definitely not let people threaten his grandchildren.

XinFeng left with Xinyao, not wanting her to see the cruel sight, however he did not disagree with grandpa’s decision on how An Shi Zi and his men be taken care off, the best enemies were the dead enemies.

Chen Zhi’s face became pale, he did not expect that he would lose his life while earning some quick money and that there would be such a terrifying expert here, the large sect he belonged in practically did not have experts like him, it seems that it would be hard to keep his life, he said “Senior, I am from Boan Gong.”

Xi Quan’s face slightly changed “Boan gong?”

Chen Zhi answered “Yes, I am a member of Boan Gong, don’t kill me.”

Xi Quan knew of Boan Hong, it was a large sect with power that greatly exceeds Hong Tong’s, he became afraid and looked at the old man, not speaking.

The old man Lei Bao said “Boan Gong.....I don’t care, those that dares to kill me grandchildren will die.”

Chen Zhi shouted with despair “If you kill me, Boan hong won’t let you go!”

.....

Chapter 5: Ancient Lun Passage (1)

The old man Lei Bao could not help but laugh “In the past.....let’s not talk about Boan gong, I even massacred the Great Abacus yin sect silly, if you anger me, then it’s your own unluckiness, haha!”

(Puttty: direct translation here 盘章大印门. 盘章=Abacus 大印= Great Yin 门=Sect)

*

Great abacus yin sect!

That was a famous and very large sect, however they had been going down hill recently, but still not something Boan Gong can compare to. Chen Zhi shivered, a man who dared to speak like such need not be suspected “Please have mercy on my life, on the fact that I hadn’t done anything yet, let me go once.....I, I’ll exchange my entire wealth for my life!”

Everyone treasured their lives to be able to reach the level of a True Lun Yin master meant that they could live up to three hundred years, he hadn’t lived enough yet, he wanted to level up too, if he had died here without anyone knowing, then it would be too sad.

According to the old man Lei Bao’s old personality, he would have killed him with a slap, but after this recovery period, his temper and personality had gone under slight change, he had started to weigh the pros and cons, not just doing things just by his current mood.

“O, your entire wealth? En, alright, take it out for me to see, if it’s satisfactory I’ll let you live.”

Although the old man had a good amount of wealth put aside Lei Bao, to raise his grandchildren, but there are many places to spend it in the future. He definitely won’t reject fortunes that had offered itself to him, this was a thought he only had after having things to worry for, if it was in he past, he would not even listen to pleas, he merely killed them instantly.

An Shi Zi also pleaded for his life, it was a pity that the old man did not care, he knew clearly that Chen Zhi did not have any deep hatred for him, but An Shi Zi had a hatred that would only be stopped after death. He did not want to leave an enemy, who knows if he'll become a powerful figure in the future, this time he invited a true Lun Yin master with three true ring bodies, if it was an expert with six or seven true ring bodies, then it would spell trouble.

After killing An Shi Zi with a punch, the old man Lei Bao said "Others....old brother Xi, you take care of them." He did not torture An Shi Zi, his habit clearly killing his enemies, killing his enemy was his way of venting anger.

After the death of An Shi Zi, his Lunchang space did not appear, which is why in this world, plundering items by killing does not work, perhaps after a hundred years where his Lunchang space collapsed entirely, his items would appear.

The practitioners of this world liked to search for treasure, the aforementioned treasure hunting mainly targeted collapsed Lunchang space, it would often contain good items.

Only death's threats will let a robbery end in success, as for Chen Zhi using the chance of exchanging his fortune for his life was a popular thing in this world, without wealth, he could still earn it back, but if his life was over, then everything would be gone.

Following his vow, Chen Zhi took out all of his fortune, the old man was very nimble and said after collecting them "This time....I'll let you go, but, if you are not happy and come back again, then don't blame me for being merciless."

Chen Zhi's forehead was covered with cold sweat as he left without turning his head back once, as for his disciple An Danai, he acted as though he did not have him anymore, he actually angered such a powerful expert, he practically harmed himself and his master, even if An Danai had returned alive, he himself would not let this bastard disciple go.

When the old man Lei Bao finished his business, he returned to the room and said “Feng, you need to quickly increase your strength now, the best is to reach Milun master as quickly as possible so that when we go Xi Rong land you can protect yourself and Yaoyao so that I don’t have to worry about you two when I fight, your current strength is too lacking.”

XinFeng smiled bitterly “Grandpa, I’m afraid my foundation is unsound.”

The old man said “Don’t worry about it, after so many days of refining, hoho, you can continue to speedily train, if there are any problems, I’ll remind you of it.”

Xinyao hugged the arm of the old man “Grandpa, grandpa, when can I start training....” This incident had thoroughly shocked her.

The old man said “Be good Yaoyao, you’re still small and cannot start training yet, you need to wait till you are sixteen, now your main priority is to train your body, you can only train wonderfully with a strong body, if not then even if you’re sixteen, you still cannot train.”

Actually Xinyao had already understood this reasoning a long time ago, it was just that she could not withstand being so weak and small, she sighed “Hai, I know.”

Her torn expression had the old man and XinFeng smiling, this girl was the delight of the three of them and was also very sensible, it was normal for the old man and XinFeng to be spoil her endlessly.

XinFeng asked “Grandpa, so was it settled?”

The old man nodded “En, it is, Chen Zhi used his fortune to buy his life.” He did not mention what happened to An Shi Zhi and neither did XinFeng ask, he knew in his heart what end did An Shi Zi meet.

XinFeng “Grandpa, you were gone for a long time, what did you do?”

The old man casually said “Nothing much, I only got a few people to pass a few messages to gather some people, we need some helpers for when we go to Xi Rong land, also, I passed a message for your parents to tell them we have already come out.”

This was the first time XinFeng heard the old man speaking of his parents volunteeringly speaking of his parents, he nodded, not speaking.

The old man said curiously “You’re not interested in the news of your parents.”

XinFeng laughed bitterly, he did not have any impression of them entirely, not to mention that in this body, the soul in it was not the original one “There isn’t anything to be curious about, I only need grandpa and little sis.”

The old man also could not help but laugh bitterly, he originally thought that he would die in Tiger Cliff Castle, which was why not long after the birth of Xinyao, he chased the two parents out to go to a large sect and arranged for them to receive his people and items in his past, he did not expect himself to recover.

Lei Xinyao had even lesser emotions for the word parent, since she was young, she was brought up by brother, she did not even have the same closeness with grandpa she had for brother.

The old man thought for a while, he could only wait till they’ve met their parents and slowly grew feelings for them, he felt very guilty to these two children, as he had lived a life of battles, he did not know how to persuade or comfort.

After being busy for about ten days, Xi Quan had finally stabilized the whole of Hong Tong.

Within this period of time, the old man had accompanied XinFeng and Xinyao to play in Hong Tong, this time without any incidents,

XinFeng had gradually started to understand this world, this world had had a rather developed steel industry, textile industry, ceramic glass industry and large-scale cultivation industry, pity that the motivational levels of this world was lacking, which was why it gave people the feeling that this world was lacking behind, at least the conditions of living in society isn’t bad although it was one without development in science and technology, whether it was steel or textile, breeding or farming, it was very advanced, but Hong tong which XinFeng was at, was still a small city

within a mountainous wilderness.

After a bit of analysis, XinFeng knew that this was a world without an energy industry, a chemical industry or a machinery industry, which limits the development of technology of this world.

The only thing that made XinFeng curious was the rich development of the steel and iron smelting industry, most of the stalls and stores had a lot of iron and steel products for sale, no wonder steel was cheap, even the barbarians had enough steel weapons.

Just like that, XinFeng was satisfied, what he was most afraid of was getting stuck in a primitive society, things he wanted not able to be found, that would be terrible, he did not wish for the flourish of his past world or a primitive life where everything he wanted had to be made himself.

.....

“So this is a Lun spot?”

XinFeng asked curiously.

The old man Lei Bao laughed “What did you think it is?”

A group of men stood in an empty space, on it was a abrupt slope that seemed rather natural but it looked to be truly strange, it was like a huge green stone was inserted diagonally into the ground, a length of a few hundred meters, in the middle of the slope was a deep groove, the groove as if drawn with a ruler, extends straight up.

Beneath the slope was a empty space, the old man Lei Bao said “Let’s go up.”

Other than the old man Lei Bao, XinFeng, Xinyao, Xi Quan, Hong Chen and his disciple was a small team of ten, all of them were ten thousand Lun masters or Milun master, in total there were sixteen of them.

There was also two big horned bulls that carried large amounts of supply baggage, of course everyone had brought their own items, which they placed into their respective Lunchang spaces.

A group of men stood at the flat surface under the slope, and under the

instructions of the old man, stood in their positions.

All of them looked curiously at the old man Lei Bao, wanting so see how he would open the Lun spot, the ancient Lun passage.

The old man Lei Bao raised his hands, a lightning glow flying out from his palm followed by a Lei Yin and sounds of thunder, the Lun Yin's might made everyone tremble in fear, only XinFeng was unaffected as he was lightning attributed, hugging Xnyao, he used his own Lei Lunli to protect the little girl, not letting the might of Lei Yin affect her.

Using Yinli he can open the ancient Lun passage, Lun Yin Li can also be used, but it required a lot of strength and also cannot be used to go to a far away Lun spot, it needed to move forward one Lun spot by one Lun spot, but using YinLi it did not matter as Yinli was a higher grade power.

The old man Lei Bao could clearly feel far away Lun Spots, he quickly searched for Xi Rong land and he found 4 Lun spots all within the ranges of Xi Rong land, slightly scanning them, he found the Lun spot he needed and through Lei Yin and connected with it.

They shockingly noticed that the groove in the middle of the slope had started to give of sliver light, circles of Lun circles lighted up, from the bottom to the top appeared about a few hundred ringed circles that alined with the grove.

The old man said "Keep your balance steady, it's starting!"

Chapter 6: Ancient Lun Passage (2)

The crowd suddenly noticed that they were supported upwards by a formless force, XinFeng also noticed that after reaching about a inch away from the ground, he was shocked, this was his first time seeing such a trick. Xinyao pointed where Xinfeng's feet was and said "Ya, we're flying, flying, brother, let me down, I also wanna try!"

XinFeng was scared "Don't move, girl, don't move!" Using 'girl' was already evidence that he was worried, normally he would call XinYao Yaoyao or little sis, but once he used girl, it meant that it was very serious, Xinyao immediately stopped moving and pouted as she chewed on her fingers, at this moment they suddenly head the old man Lei Bao shouted "We're leaving!"

Instantly, the crowd floated along the passageway formed by the circle rings.

The crowd was frightened and could not help but all cry out, their shouts accompanied with the hearty laughter of the old man, they were shot out in an instant as if they were bullets.

XinFeng tightly hugged Xinyao, he could only feel blinding, unable of seeing his surroundings, his heart pumped as if a drum, it was very scary.

The feelings brought on by the ancient Lun passage gave XinFeng were similar to a roller coaster, but roller coasters had seats and also safety belts, but there was nothing here, it was even scarier, suddenly jerked up or down, suddenly fast or slow, there were only fluctuations of colors but no clear view of anything.

Blurry views, dazzling colors along with invisible pressure, everyone felt terrified. After about a dozen minutes, suddenly, the crowd felt as though their bodies had became lighter while the view in front of them changed greatly, their first feeling was a wave of hot air that headed towards them.

XinFeng said shocked "The desert?"

The old man Lei Bao had already collected his LunYin, he said “That’s right, this is the borders of a desert.”

Xinyao had already started to shout “Hot, it’s hot!”

It was hot, steaming, one must know that this crowd of people were all wearing thick fur coats as they came from a cold place, suddenly coming into a hot and dry place, it was unbearable for them.

They hurriedly took off their fur coats, at first Xinyao was shocked, but she was instantly elated, she did not like to wear too many clothes, and now she can wear the satin dress she had bought.

In Xi Rong land was also similar Man Huang land, but the difference was that this wasn’t a mountainous area, but a large area of sand, and also countless oases, the oases here are not small, a large scale oasis can be up to ten thousand square kilometers, while countless small oases were spread out.

Xi Quan said “Old bro, there are a total of 3 big sects in Zi Rong land, one of them is Xi Rong nation, the other is scorpion alliance and lastly the mantra firm, Xi Rong nation occupies the largest oasis and is also the kingdom with the most influence, the scorpion alliance collected dozens of sects, their influence is rather okay while mantra firm are in control of the trading within Xi Rong Land.”

The old man Lei Bao said “These three restrain and unite with each other, their biggest enemy is....the dessert barbarians, hoho, the natives of Man Huang land are originally strong, however, against the unified humans, they were driven out to the edge areas.

Xi Quan nodded “Yes, the information we gathered were roughly like that.”

The old man Lei Bao said “The place where the Lun Chang space appeared, are you sure?”

Xi Quan said “En, you know that once a Lun Chang space appears, it will not move, it is only very had to open, Xi Rong nation, Scorpion alliance and Mantra firm all declared their rights to the appeared Lun

Chang space, hoho.”

The old man Lei Bao said blandly “Of course, however, one must have the power to back it up, if not then they will only become a laughing stock.”

Xi Quan took out a map, XinFeng curiously moved closer to look at it, it was a map made of a piece of leather, on it was circles and dots along with a variety of horizontal and vertical lines, XinFeng did not know what to say, he did not understand it at all, this map was too fucking abstract.

Quickly, Xi Quan found the place where they were and laughed “We are close to the biggest oasis in Xi Rong land, the place where Xi Rong nation was, hoho, the place we are now, has a very good location, it saves us a lot of time.”

XinFeng laughed “Grandpa, if we get lost, then to return to Tiger Cliff Castle...how long do will it take?”

The old man was instantly laughing “That would be troublesome, if there was a guide to bring you, and if you used waking, then I presume it will take a year or two, en, that is if you did not get lost again, hoho, if you went yourself then perhaps it will take two or three years , perhaps....you would be lost.”

XinFeng could not help but choke “That’s far, Yaoyao, let’s follow grandpa closely, if we get lost....then brother cannot bring you back.” He did not even know the direction of his house, how could he even go back.

The crowd packed their things and lead the two bighorn cows, stepping in the soft and hot sand, they walked unsteadily towards the oasis of the Xi Rong nation.

Xinyao was the happiest, this was her first time seeing so many sand, she played around as she ran, occasionally she would scoop and throw up some sand, watching it fall as she giggled.

After walking until sunset, they finally caught sight of a oasis, the dry air had a hint of dampness, although Hong Chen had entered the range of True masters, he had never left the area of Hong Tong’s influence, similar

to everyone this was his first time coming to the desert, he said “Look! Is that a oasis?”

Wen yan said “Master, I see it too, it seems to be green.”

Xi Quan said “We haven’t reached yet, that should be a normal oasis, we need to go past this one to reach Xi Rong land.”

Hong Chen could not help but shake his head “We’ve walked for half a day and still hadn’t reached?”

The old man Lei Bao said “The desert is very big, the distance we walked is counted as small already, walking for about a dozen of days and still hadn’t seen a oasis is a normal thing.”

Hong Chen said “We can see a long distance from here, not like there, everything hazy, our vision poor.”

The old man said “That is because it isn’t windy, once it becomes windy here, then it would be like our snow storms, not being able to see anything.....en? What sound is that?” He tilted his head to hear better.

The crowd also listened carefully, but none of them noticed any noise, they only saw the old man Lei Bao suddenly giving off an eye piercing glow from his body, in an instant he flew up to the skies, Xi Quan’s mouth was open in shock, only now did he know that the old man at least had 5 true ring bodies, an True Bao Lun yin master expert or even more that that, as only True Bao Lun Yin masters can fly to the skies.

Hong Chen, his disciple, the Milun and ten thousand Lun masters were all similarly shocked, they understood that the old man was truly a terrifying expert.

After a few minutes, the old man Lei Bao descended to the ground “Go, there’s a battle in front of us?”

The crowd was shocked, XinFeng immediately waved his hand for the currently running amok Xinyao to come over, his current task was to keep the little lady safe, upon hearing about the battle in front of them, he immediately called her over “Is Yaoyao tired?”

Xinyao breathed out loudly, after crazily running and playing, she was actually very tired “Brother, I’m tired.”

XinFeng said as he squatted “Come, brother will carry you.”

The little lady quickly climbed onto XinFeng’s back and giggled “I’m done!”

The group walked faster towards their front.

Without even five minutes passing, the crowd heard sounds of killing from afar, and their expression became serious, they were all fighting experts, in the area of Hong tong’s influence, there are countless barbarian tribes, every year they would do a crackdown on the tribes, and Hong Togng would send out experts, they frequently went to battle, which was why killing was not something they cared much about.

The reason was for why they became serious was that they were still unfamiliar with this place, fighting in a completely foreign place as such, they felt a bit of worry.

This group of men and horse climbed onto one of the towering dunes and saw a group of desert barbarians surrounding a groups of people, the group of people were protecting a dozen of sand boats, along with a dozen of desert camel beasts.

XinFeng said “E, this is the desert barbarians?” They were similar to forest barbarians, all of the, had thick and tall bodies, but the difference were that almost all their body**, except for a piece of skin at their crotch, their skin had all kinds of patterns on it, who knows if it was temporary or permeant, anyway it was colorful.

(Putty: the raw gave me ** and I have no idea what ** is censoring, and forgive me if the sentence is weird for this.)

These people from the area of Hong Tong’s influence fought a lot with the barbarians, which was why they were too familiar with them, they closely inspected the differences.

The powerful barbarians can even fight with thousand Lun masters, one must know what humans have many mortals among them, the amount

capable of reaching the level of a thousand Lun master were actually very small, a thousand Lun master in a sect may be belittled but in the world of the mortals, they are terrifying battle machines, hundreds of experienced mortal fighters may not even win against a single Thousand Lun master, which was why the naturally gifted barbarians are powerful fighters.

Upon careful inspection, Wenyan said “There are about a hundred twenty to fourthly barbarians, the surrounded group have about five hundred people those capable of fighting.....their numbers definitely do not go past the two hundred mark, those that are practicers.....there are at most ten of them, not bad, with these ten people, they are holding on, but....I don’t think they will be fine.”

The old man Lei Bao said “Not bad, little guy’s inspection is very detailed.

Wenyan immediately raised her head, a smile on her face, to be praised by such a expert made he elated, even Hong Chen had a smile, he always loved this disciple, seeing her get praised made him very happy too.

XinFeng said “The desert barbarians had noticed us!”

Chapter 7: Mantra Firm (1)

TLNote: Xi Quan is actually Qi Xuan, I must have gotten confused halfway through, I'm sorry.

Oh and Wen Yan was referred to as Yan throughout this, think of it was a pet name, I suppose. Though she was referred as that even before this chapter, I found it rather weird to keep changing the names, but I suppose I should.

*

The deep sound of the signal of a Ox's horn was heard.

Yan said "That troop is asking us for help?"

Qi Xuan said "That's right, the people here use signals from the Ox horn to send messages, like how we do it with whistles, old brother, do we save them?" The leader of this group is actually the old man Lei Bao, he was only the leader in name, as most of the people from the group was from Hong Tong.

The old man Lei Bao said "Of course, we are not familiar with this place, if we save them, they can become our guides, we can also mingle with them and learn about the situation."

Qi Xuan nodded "Okay, Qi Tian Yao, bring your team to exterminate these barbarians."

The old man Lei Bao "Feng, you go too, out Yaoyao down, you need to practice more and battling is one of the best ways to learn."

Xinyao placed Xinyao down and said "Yaoyao, follow grandpa and down run around, brother will need to go for a while, but I'll return quickly."

Xinyao said "Be careful Brother." She would not stop XinFeng to go to battle, in this world, battling was a very glorious thing.

Xi Tian Yao was the nephew of Xi Quan, a Milun master, but it was unfortunate he could not raise his level anymore, now he was a leader of the team, he said "Arrange your weapons and ready to attack."

Hong Chen said “Yan, you go too.”

Yan smiled “Okay, it’s been quite a while since I had battled, xixi.” He was a master that treasured his disciple, normally he would not send her to battles with risk but this one did not really have any danger, as a Milun master against barbarians, as long as it wasn’t a one vs a dozen or so, then there would not be any danger.

(putty: Xixi is a laugh of sorts, similar to a teehee)

XinFeng took out his black bow, his current Lun Chang space had became large along with his rise in levels, although still incomparable to a Milun master, but still capable of holding a good amount of items. With the Lun Chang space, his threat with the black bow increased greatly because the arrows can be taken directly from the lun chang space, in it he placed a hundred of them, enough for him to use for a long time.

Those below and on the level of Milun master would use weapons to exert their Lunli, only after becoming a True Milun master and obtaining a true body, can they use their Lunli freely to attack.

Qi Tian Yao shouted “Let’s go, to kill the barbarians!”

A team with the total of a dozen men, the weakest of them was a thousand Lun master and the strongest a Milun master, their fighting strength was rather good, against a hundred barbarians weren’t anything too hard for them. XinFeng was at the back of the team, his task was to attack from afar, the power of his black bow was very hard for the barbarians to block.

The team there gave cheers but was followed by noise, because they realized that the people that came only had numbers of a dozen, they themselves had about 5 hundred people to barely block the attacks of the barbarians, what can these dozen of men do? Kill themselves?

The first one to initiate the attack was XinFeng.

After the barbarians noticed them, immediately about 7-8 of them speedily came over to welcome them as the barbarians had assumed that only a few barbarians can take care of these dozen people, it was actually

okay for the barbarians to presumptuously assume so, as normal humans barbarians have difficulty against, be it strength or fighting spirit, they were much much better than normal humans.

But meeting XinFeng and his team, these barbarians were similarly not an opponent, it was like how they bullied normal humans, the practitioners bullied the barbarians.

Ping!

With the sound of metal colliding, an arrow was fired and a barbarian fell, this arrow had pierced through the head of the barbarian, even if a barbarian's constitution was even better, it still wouldn't be able to block this attack, a fatal attack, it then followed by continuous sounds of colliding metal, one by one, shadows flew past and one by one barbarians fell, even without the team coming into contact with them, the charging barbarians were all eliminated by XinFeng.

Qi Xuan and Hong Chen could not help but praise "What powerful archery!"

Yan could not help but say "XinFeng, you kill too fast!"

XinFeng laughed and ran faster forwards, reaching the sides of the killed barbarians, he speedily took back his arrows, these pure steel refined arrows were rather costly, with only slight repairing they can be used again, he did not bear to throw them away.

At that moment, the surrounded team made extremely loud cheering, they had already noticed that the people headed towards them were very strong.

The attacks of the Barbarians alleviated, they had already noticed something was wrong, there was no normal human with such terrifying archery, one must know that even if they shot barbarians, their thick skin and meat made it hard for the arrow to pierce it, a single arrow is far from being able to do so, their skulls are even harder, and XinFeng's arrow was not only able to pierce through it but it also sent barbarians charging XinFeng's way flying, this strength was very terrifying.

The barbarians there immediately stopped their attack and turned to the dozen men headed their way, their instinct informing them of the huge threat.

A hundred or so barbarians charged their way madly, Qi Tian Yao shouted “Kill!” He held on to a spear as he leaped, the spear sweeping sideways.

Qi Tian Yao’s opponent wielded a steel club that had the thickness of a bowl’s opening, it clashed with the steel spear that was only the thickness of a duck’s egg, the barbarian revealed a smile on his face, believing that his steel club could definitely send his opponent flying.

Kuang Dang!

Qi Tian Yao had Jin tu attributed LunLi, with the Jin attribute supporting the steel spear, it made him very strong, with that one attack, that barbarian was pushed back continuously to his disbelief, the most terrifying thing he found was that the club with the thickness of a bowl was bended, before he could react, Qi Tian Yao thrust his spear, he did not even have the time to withstand it, and with a shout, he blocked it with his arm.

(Putty: Jin= Gold, Tu= Earth.)

With a Kacha sound, the barbarian’s arm was broken and Qi Tian Yao already reached his side, he slapped the barbarian’s back with the back of his hand, Peng! The barbarian fell to the floor, this slap had caused his spine to shatter, a thousand Lun master that followed Qi Tian Yao closely then stomped his foot, causing the barbarian’s brain to splatter.

XinFeng continued to shoot his arrows, as if striking iron, the bowstring made many Ping Pang noises, followed by barbarians consecutively falling to the ground.

Upon contact, a dozen barbarians died, at that moment they started to panic, this type of massacre was something even barbarians were unable of standing, their numbers was originally small, especially barbarian tribes, those that come out from the tribes are all the warriors of the barbarians, once their loss is great, then their tribe may be swallowed by

other barbarians tribes, which was why one barbarian shouted and the originally charging barbarians immediately turned and ran.

The dozen of them followed to kill but the speed of the desert barbarians was too fast, these forest practitioners were very unaccustomed so other than XinFeng who kept on shooting arrows after arrows, no one was able to catch up, quickly Qi Tian Yao ordered "All of you come back!"

XinFeng also immediately stopped shooting, those that was targeted by his bow, not one of them was capable of escaping, all of them died with an single arrow, he had specially aimed for the heads and along with his precise archery, they were all killed, XinFeng had also killed the most barbarians.

Yan was still unsatisfied, she had only gotten to kill a single barbarian, the other had escaped.

By himself, XinFeng had killed ten barbarians while everyone else's kill had only accumulated to twenty one, a dozen or so injured barbarians sucessfully escaped.

Hong Chen leading 2 big horned bulls and the old man Lei Bao and Xi Quan, the three of them slowly headed down the dune, walking towards the surround troop.

From that troop walked out a group of people, the two side quickly meeting each other.

This was a merchant group from Mantra firm.

The Mantra firm had one of the largest influence in Xi Rong land, this merchant group was considered a small scaled one, if it was a large scale one, then the barbarians would never dare to surround them, that was because large scale Merchant group would normally have a good amount of practitioners with them, and this sort of small scale merchant group would only have a little amount of a practitioners, low leveled practitioners, the strongest of them only a thousand Lun master.

This merchant group only had ten practitioners, the strongest of them a

hundred Lun master, a very old hundred Lun master, the rest of them were small Lun masters that had only just stepped into the practitioner's world, their qualifications very bad, with a few decades of training but not even reaching a hundred Lun master, though of course they are stronger than the average human, the recruited warriors of the small merchant groups.

The old man Lei Bao, Qi Xuan and Hong Chen never intended on negotiating, with their status and identity, they wouldn't discuss with merchants, the task was left to Qi Tian Yao and XinFeng, the reason why XinFeng was included being the old man's thinking that it'll be practice for XinFeng, only by experiencing many things will one learn to handle different affairs.

The old man Lei Bao had suffered because of this in the beginning, when he had just started his journey, he was already a big expert but he did not know how to communicate and mingle with others, his temper terrible, with a word of disagreement would cause him to start a fight, thus he hoped for XinFeng to practice, as he was behind him supporting, even if XinFeng was unable of doing anything or gets into trouble, he can help to settle it.

The leader of the Mantra firm, was a young man probably in his twenties, he was not a practitioner, he had chatted with the guard leader and knew that the people before him was Lun masters, as for their level he was unsure but he only knew that these people were very strong, people he couldn't offend.

Qi Tian Yao walked forward and said "I am Qi Tian Yao, Milun master, the leader here."

XinFeng said "Lei Xin Feng, Ten thousand Lun master."

The leader said "I have seen you sirs, I am Tuo Luo Niao, the leader of the merchant group."

Qi Tian Yao said "You are from Mantra Clan?"

While XinFeng was still suspicious, Tuo Luo Bird? Was there such a bird?

(Puttty: the last word for the guy's name is 𪇑 which means bird, thus the confusion.)

Tuo Luo Niao nodded “Yes, I am from the Mantra clan, I thank you all for your assistance.”

Qi Tian Yao said “No need for thanks, this kind of things, as long as seen, no one will only watch on, excuse me, but are you all headed to Xi Rong nation?”

Tuo Luo Niao said “That's right, we are headed there.” Learning that Qi Tian Yao and his people were headed to Xi Rong nation, he instantly warmly invited them, hoping to go there with them.

Xi Tian Yao did not reject, the originally wanted to go with merchants, wanting to learn of some news, the network of the merchant groups was the best, as they travel extensively, they know many kinds of news.

Chapter 8: Mantra Firm (2)

The crowd reached where the merchants was and immediately saw a few corpses at their first glance, there was also a dozen or so sitting on the ground, a good amount of them had broken limbs, it showed how intense their fight with the barbarians were.

Tuo Luo Niao said “Luckily you people came, we were just surrounded and all of you appeared, if your arrival was delayed, then we would have lost even more people.”

XinFeng noticed that no matter Qi Tian Yao or Yan, the people in this group was all very prideful, other than him and Qi Tian Yao, the others did not even speak a single word, they merely curiously looked around, even Lei Bao, Qi Xuan and Hong Chen were even silent at the back.

This was probably the natural barriers between normal humans and practitioners, in this world, practitioners did not have much respect for normal humans.

Tuo Luo Niao’s attitude could already prove that normal humans, despite his large influence and being a lineal descendent, he treated the practitioners with great respect.

Qi Tian Yao turned back and discussed with Qi Xuan for a bit and decided that, they will follow the merchants.

Tuo Luo Niao immediately arranged for a few sand boats for them to sit in.

XinFeng noticed that these sand boats were very interesting, there were wheels on both sides but these wheels did not touch the ground and was placed diagonally, he then understood that these wheels could be placed down, which meant that these boat slid on the sand and could become a wheeled car upon leaving the sand, these boats had a elaborate design.

These sand boats were dragged by Shatuo beasts, these Shatuo beasts were special animals that belonged to Xi Rong land. Their characteristics were somewhat similar to the Camels of XinFeng’s past world, but it’s

outer appearance was entirely different, it resembled a tortoise and it moved as if an tortoise, pushing forward from its two sides, it had thick and strong limbs, and of course it did not have the hard shell of an tortoise, instead it had thick long fur on its large body, a simple movement of it brought it further by five meters.

(Putty: Sha= sand, Tuo is a letter in the Chinese word camel.)

A few dozen desert hunting dogs was scattered in the group, these dogs were used for warning, their noses extremely sensitive, upon catching a barbarian's scent, they would go crazy, they were among the best dogs in the desert.

Under Tuo Luo Niao's instructions, the corpses were burnt, XinFeng asked curiously "Why don't you bury them?"

The members of the merchants all made a astonished expression, this question was a bit stupid, Tuo Luo Niao did not dare to reveal a disdainful expression, he explained "You cannot bury them, because the nose of the barbarians are also very good, if you bury the bodies, they would dig it out and eat it."

XinFeng felt disgusted and shook his head with a bitter smile, these barbarians are not picky at all, they eat anything.

Quickly, the merchants continued their journey.

Sitting on the sand boat, Xinyao seemed to be elated, this was her first time sitting on such a car, the sand boat slid on the sandy ground, creating a light 'Sha sha' noise. They did not even feel a bump seated on the sand boat, it was very steady, the boat was also very wide, at the two sides was the two large wheels that served as railings.

There was practically no sounds of footsteps from the running of the Sha Tuo beasts, it's feet was soft and huge, soundless even as it reaches the ground, the long sand boat team looked very spectacular, with a few desert hunting dogs running back and forth.

The sky gradually darkened while the oasis in the distance became clearer.

Tuo Luo Niao came rushing over riding on a horse, reaching the sand boat XinFeng was on, he said “We’re very close to SuYing land, it’s just forth of us.”

XinFeng nodded “Okay.”

Only then did Tuo Luo Niao confidently urge the Sand Tuo beasts to run as he loudly commanded his team.

XinFeng said “Grandpa, we reached Xi Rong nation, is that place in the inner parts of Xi Rong nation?”

The old man sat cross legged, hearing XinFeng he laughed “Of course it’s not inside Xi Rong nation, hehe, Xi Rong nation was the meeting point I set, I have a few friends coming. With only my strength, it’s not enough, especially when we are competing for such a treasure, if we go unprepared, then that definitely suicidal, also, I have to arrange some things for Xinyao, you can come with me but Xinyao is too weak, if anything happens, we won’t be able to deal with it.”

Xinyao immediately gave up, she repeatedly said “Grandpa, don’t leave me behind.”

The old man LeiBao gently touched Xinyao’s head, bitterly smiling “Yaoyao, you cannot distract grandpa and brother, we’ll die.....”

Xinyao was scared stiff, she said “I don’t want grandpa and brother to die.” Tears already started to fill her eyes. XinFeng immediately hugged her and said softly “It’s fine, brother and grandpa won’t die, grandpa is so strong, Yaoyao don’t cry.” He glared at the old man LeiBao.

The old man Leibao smiled bitterly yet again, he raised his hands and said “Alright, alright, I’ll stop speaking, you convince her.” He knew that XinFeng doted on the lady more than himself, refusing to let her experience even the slightest of unfairness.

However, XinFeng agreed to place Xinyao temporarily somewhere safe, he feared for the girl who hadn’t even reached the age for training, a young child weaker than a normal human, if she went with them to fight for the Lunchang space, it would be too dangerous, even if the old man

Leibao was even stronger, there are always moments of carelessness, it was better to be safe than sorry, he would definitely go crazy if anything were to happen to Xinyao.

While comforting Xinyao, he looked for the Lunchang space, according to the Star Python records, the growth of a Lunchang space can reach unimaginable proportions. The most miraculous thing was that after the death of the owner and upon its emergence, it could become a small world, of course, these small worlds are not everlasting, basically after ten thousands of years later, it would start collapsing.

When a small world starts collapsing, many precious stuff would appear from it, for example a gold attributed super experts's Lunchang space upon emerging will form into a small world, and after years of erosion, collapse, large amounts of rare gold attributed ores, even large pieces of gold attributed minerals, for gold attributed people, that was the best sort of treasure they can find.

Similar for the other attributed Lunchang space, which was why various treasures of this world was found in emerged Lunchang spaces, with every newly emerged lun change space was a rain of blood, with countless experts appearing, many of which rather old freaks, their training reaching unimaginable levels, to compete for such a treasure without strength was similar to courting death.

There were the smart people who waited for the fighting to cease and picks up the remaining leftovers, even by this way, they could find a good amount of good items.

Finally, the sky darkened followed by the lighting of various fires while Tuo Luo Niao urged for more speed.

Xinyao was sweating buckets, she said "Brother, it's so hot, I want to drink water." She had already madly drunk large amounts of water, XinFeng was also sweating, he replied "Yaoyao, this place is different from our house, the desert is all like that....just wait a while more, it'll become cold." The climate of the desert was what he knew about, upon night, it would become rather cold.

Some shouts were heard from the front and the old man LeiBao laughed “We reached, hehe, luckily we followed the merchants, if we walked here ourselves, it would take even longer.”

Xinyao said elatedly “Brother, I hear the sounds of running water! There’s water! I wanna take a bath!”

There was a large pond along with a small river, on the ground was large amounts of growing shrubs and weeds, under the glowing fire, they could clearly see the reflections on the water.

Under Tuo Luo Niao’s instructions, the members of the merchants started to organize the sand boat and Sand Tuo beasts, they needed to feed and hydrate the sand Tuo beasts, then organize the sand boats into a defensive formation, only after that could they take care of their food and drinking situation.

Qi Xuan’s team did not need to settle any sorts of food problems as all of them had brought enough food and drinking water, quickly, they lit a bonfire and the people from the small team sat around it.

XinFeng walked to the water and brought back a bucket of water for the old man and his sister to wash their face.

A few of the members took out some of the freshly pickled meat and started to roast it, the others had large amounts of rather delicious bull meat, it was very nutritious and could energize the body.

When the merchant group of Tuo Luo Niao finished with their work and started to prepare their food, XinFeng had already started eating.

The merchant group purposely prepared tents, XinFeng noticed that only a few merchants with high positions had tents, the others slept outside near the bonfires to keep warm.

The old man, XinFeng and Xinyao slept in a single tent, Xinyao was still young, thus she had always slept with Xinfeng.

Reaching dawn, the old man suddenly woke up, he shook XinFeng awake who softly said “Grandpa, what’s wrong?”

The old man softly replied “There are people headed our way, a lot of them....wu, there’s seven to eight hundred of them....but they are not barbarians.”

XinFeng was not as powerful as the old man, naturally he would be incapable of detecting them “Are they heading our way due to coincidence or are they against this place?”

The old man with a cold snort “I reckon they have a grudge against this place, they are all holding weapons while moving stealthily, only a few hundred meters away from us.”

XinFeng sighed “It’s dangerous everywhere, do we remind them?”

The old man laughed “We’re all together now, I believe that they won’t let anyone go.”

XinFeng said “Alright, then I’ll do it....” He carried Xinyao out of the tent, looking upwards, he shouted “Enemy attack!”

Instantly, chaos struck the campsite, most of them were sleeping outside which was why they immediately jumped up, wielding their weapons shouting “Enemy attack? Where? Where!”

Actually, another person had also noticed, Qi Xuan was only a bit later than the old man, after all he was an expert with three true ring bodies, no matter how careful they were, they were still heard, hearing Xinfeng’s warning cry, he could not help but laugh “Interesting, this merchant group’s leader’s luck.....it’s too bad.”

Chapter 9: Pitiful Bandits (1)

Xinfeng's sudden shout caused the campsite to be covered in chaos, the bodyguards managed to stand up properly, the merchants, bodyguards leader rushed out from the tent, one by one shouted and wondering what the happened.

Qi Xuan and his men came out of the tent, they immediately met each other. Qixuan said "Are you all equipped with your weapons? We are surrounded by the enemy."

Tuo Luo Niao shouted, the sand boats were initially placed in circular formation while the Sand Tuo beasts are protected by people. Tuo Luo Niao was worried and angry, he speedily organized his troops and had the crowd take cover behind the sand boats, after doing so, he immediately ran over to Xinfeng.

Gradually, even Xinfeng heard their movements, Tuo Luo Niao ran to their side and asked "Are they Barbarians?"

Xinfeng said "They are not barbarians, hehe, I ask of you.....Tuo Luo Niao, did you offend anyone? Why is so many men heading our way?"

Tuo Luo Niao said worriedly "A lot of men? Bandits?"

Xinfeng shook his head "I don't know, you better have a lot of fire...." The pre-dawn darkness almost made it so that he could not see his five fingers of his reached out hand, the entire land relying on the fire's glow.

Tuo Luo Niao was enraged, he was already over the barbarian's attack, but now humans came, it made him furious, he said "Be careful, I'll find men to light some fires...." He dare not ask these experts to help but instead immediately called for his underlings to start large amounts of fires, causing the surroundings to become bright.

The old man sighed "Alright, let's not just stand here, leave some to guard this area, Feng, you protect Yaoyao. Let's go find out who came over to disturb our rest."

Xi Tian Yao said "Tuo Luo Niao's enemies are not lacking in number,

hehe, look at him being anxious.”

XinFeng entered the tent and noticed that Xinyao was already awake, sitting on the ground rather semi-consciously, she said “How noisy, brother.....it’s already dawn?”

Xinyao was extremely cute whilst semi-conscious, XinFeng laughed “It’s fine, it seems to be rather lively outside, someone came over.”

The people in the wilderness all hid behind the sand boats, with a group of thirty archers, the others all carried weapons, their ten most powerful men walked back and forth, prepared to attack at any moment. These dozen or so men were all practitioners, a pity that the most powerful one was merely a hundred Lun master, which was stronger than normal humans.

XinFeng brought Xinyao out of the tent and saw Yan, he said “Yan.....”

Yan had a cold expression as she said “What?”

雷星峰道：“帮我看着瑶瑶.....呵呵，手痒，我想去玩玩。”

XinFeng said “Help me take care of Yaoyao....hehe, I’m itching to go and play.”

Leibao looked at Yan while Hong Tong laughed “No problem, Yan, you go take care of the little lady.”

Yan did not dare to disobey her master’s words, though unwilling and itching to fight, as for these type of people, fighting is the best way to learn. She said “Okay, Yaoyao, come to sister.”

Xinyao was very clever and could tell Yan was unwilling, she replied “It’s alright sister, I’ll follow grandpa. Brother, be careful.”

XinFeng was itching to use some of his offensive skills, these low risk battles was a good chance for him to train, he laughed “Who’s coming with me?”

Qi Tian Yao said “I’ll bring a few men to help.”

Qi Xuan “Don’t worry, if there’s an expert among the enemy, you need not risk it, just leave it to me.”

The old man Lei Bao said “There shouldn’t be any powerful experts, I did not notice any of them.” His instinct wouldn’t be wrong, unless the enemy has a good treasure that can conceal his aura, he wouldn’t be able to escape Lei Bao’s senses.

A few thousand Lun masters walked out, all of which with the hobby of fighting, following Qi Tian Yao and XinFeng to the circular formation formed by sand boats. Seeing their arrival, Tuo Luo Niao could not help but be elated, from the start he had noticed that everyone in this group was experts, even if only a few came over, they still would contribute much.

Tuo Luo Niao walked forward to offer his thanks but XinFeng waved his hand “No need to thank me, I’m only here to play, also, give me a hundred arrows.” With a movement of his arm, a black bow appeared in his hand, the people amongst the surroundings revealed a envious expression, this storage method was something practitioners have, not normal humans.

XinFeng did not want to use his own arrows, they were all special arrows useful for dealing with barbarians and prey, but for normal humans, it would be too wasteful.

Tuo Luo Niao immediately had his men bring over two hundred arrows, XinFeng examined it and found out that the quality was rather good, of course incomparable to special pure steel arrows, these were arrows for normal humans, but it was enough for him.

Kill!

From afar was a sudden array of shouts, followed by movement of countless men, under the fire’s dark red glow, god knows how many man came up to attack.

Beng! Beng! Beng....

The group of Thirty archers shot out their arrows.

The archery of this world was very ordinary, with the exception of XinFeng’s black bow which was created specially to achieve such a strong harming ability. A normal bow’s chances of harming someone was very

high, but killing someone was something rather difficult to achieve, this was because people of this world had good protective armor, if the arrow did not directly impale something important for example an eye, it was extremely difficult to kill someone.

Xinfeng said “These people are all trained men, their attacks are not weak...” As he spoke, his bowstring made a sound akin to metallic collision, instantly killing a man who climbed up the sand boat.

Merely upon contact, both sides suffered great casualties.

Qi Tian Yao and his men did not go to the front line, instead they stood at the back of the formation, only attacking when someone broke through their formation, instantly killing them.

The combined amount of men of both sides did not reach a thousand in numbers, but XinFeng felt as though there were countless people, there were silhouettes of movement everywhere, flesh and blood flew everywhere, it made him feel extremely excited, this was entirely different from small scale fights, shouts and cries of death filled the battlefield, this clash showed him cruelty in a huge scale.

A few armor wearing men suddenly broke the formation, seeing XinFeng who stood at the side, they shouted loudly as they charged, their faces revealing a savage expression, that kind of madness and indomitable attitude was rather scary.

Xinfeng was not scared, after all he wasn't inexperienced in fighting. XinFeng especially did not feel any fear towards normal humans, loading his arrow, Ping Ping sounds appeared as arrow after arrow was shot out, all of it hitting the head, those men had fallen even before they could reach him.

Yan did not come forward, she stood near XinFeng, and anyone who came into her attacking range would be killed quickly.

These three great experts, Lei Bao, Qi Xuan and Hong tong all stood behind, none of them attacking, if they did then these men would not last even a single attack, however, those that reached their level would definitely not touch normal humans unless provoked.

Qi Tian Yao and his men did not attack either, instead they passively waited, if they had attacked, then the results would be the same, those normal humans would not be able to block.

Bloody smells dispersed, causing the air to have a metallic smell as people died one after another.

The fighting of normal humans was much more cruel than a practitioners fight, large amounts of death filling every moment.

The men of the merchant group was decreasing rapidly, the strength of the opponents obviously much higher, although the men of the merchant group amounted to five hundred, but those capable of fighting only amounted to three hundred, compared to the enemy troops which had eight hundred men, they would have lost already without the help of the defensive formation of the sand boats, after holding on for roughly a dozen minutes, the merchant groups finally retreated and was quickly surrounded by this group of people.

XinFeng quickly retreated to the old man Lei Bao's side and asked "Do we have to go all out?"

Qi Xuan laughed "I'm curious to know who had came to attack the merchant group."

Leibao said indifferently "We'll get our answers soon."

Tuo Luo Niao and his men were pushed back non stop, but they were not dumb, all of them retreated towards Xi Quan and his men's location. Quickly there was no more space to retreat to.

The opponent did not seem have the intention of immediately attacking, a dozen men came forward, one of them said "Tuo Luo Niao, come out, stop hiding."

Tuo Luo Niao could not continue to hide, he walked out of the crowd while gritting his teeth and said "Who are the all of you?" Actually he already had a vague answer in his heart.

A man laughed as he walked out of the crowd, he said "Tuo Luo Niao, even you have such a day as today, haha, haha, ha."

That was a skinny man, according to the standees of this world, this man was definitely skinny, by Xinfeng's estimation, this man was at most 1.50 meters tall and also after careful inspection, this man was assumed to be a normal human, not a practitioner.

Tuo Luo Niao was furious yet shocked, he said "Tuo Ta Shi, it's you!"

Tuo Ta Shi laughed "That's right, that's right, it's me, it's unexpected that you still remember me, haha, hahaha!"

XinFeng said softly "Tuo Ta Shi? Interesting, they should belong to the same family, why kill each other?"

Tuo Luo Niao said "Tuo Ta Shi, you piece of dog shit! If I did not let you go in the past, you would have been dead already! I'd never expect you to be so cowardly to not attack the leader, but instead attack me!"

Tuo Ta Shi coldly laughed "You were a accomplice, don't worry, I'll not forgive anyone who had harmed me in the beginning!"

Tuo Luo Niao said "When the fuck did I become a accomplice? I am not related in this matter at all, you mother fucker....it's Tuo Ye Shi's and your feud, you fucking went to bully his sister, of course he won't let you go....without me making peace, did you think you would be able to live?"

Xinfeng's eyelids twitched, from the start of the conflict, he noticed that this skinny fellow was not a good person.

Tuo Ta Shi said "So what, anyways you should all die! If you gave me a chance, I won't let even one of you go!"

Chapter 10: Pitiful Bandits (2)

Tuo Luo Niao said hatefully “You’re a pile of dog shit, I should have let Tuo Ye Shi kill you in the past!”

Tuo Ta Shi laughed “Haha, hahaha, you’re regretting now? Haha, it’s too late, although you were forced to be a dog in front of Tuo Ye Shi, but I similarly won’t let you off, you all....will die, haha, I am very happy, actually even if I didn’t kill you, just by destroying your merchant group and your men, even if you went back, Tuo Ye Shi won’t let you live, haha.”

Xinyao said softly “This guy is so annoying, his laughter is awful.”

Tuo Luo Niao said “You intend to kill us all?”

Tuo Ta Shi said “Definitely!”

Tuo Luo Niao suddenly laughed strangely “You can try!” He had suddenly thought of the mysterious group whereas every member were powerful practitioners.

From the team that was behind Tuo Ta Shi came two large men, one of them spoke “Tuo Ta Shi, why talk so much bullshit. Everyone put down your things and get naked, the female stay and the males....nevermind, after putting down your weapons and clothes you can go!”

Tuo Ta Shi said hurriedly “Boss, you can’t let them go!”

Pa!

That man slapped Tuo Ta Shi and shouted “What do you fucking understand, go to the side!”

Hatred flashed across Tuo Ta Shi’s eyes, he did not dare speak more but instead moved to the side.

Tuo Luo Niao bursted into laughter “Tuo Ta Shi, I did not expect you to be so useless like the past, calling you a pile of dog shit was actually praising you, you’re not even worthy to be called shit! Why would our Tuo family have a this kind of thing!”

The old man Lei Bao said softly “Hehe, how interesting, when they put

down their weapons, they would be close to death.”

XinFeng quickly understood, the sand bandits were giving these people a harsh road to walk, they did not have to continue to struggle as they had already reached the oasis, even if everything was taken, they would not have any life threatening danger. Giving them a bit of hope for survival, these people who understood that would not fight, thus reducing the casualties. As for the order to put down their weapons, even if there was another conflict, these men could not pose a threat anymore.

That man walked forward “Have you understood my words, if you cease resisting, I will let you live!”

Tuo Luo Niao laughed coldly “The thoughts of you bandits, who wouldn’t understand? Put down our weapons? For you to massacre us for fun? Stop fucking dreaming, only that piece of dog shit will believe your words! Fuck you!”

That man raised his hands causing a bundle of fire to hit the ground, he said indifferently “With I...Sha Luo Nei’s strength, do I need to lie to you?”

Hong Chen laughed “Mother fucker, a tiny thousand Lun master dares to be so savage, ridiculous.”

Tuo Luo Niao’s heart ran cold, he was most scared of running into practitioners, he said “Don’t bullshit, let us put down the weapons, stop dreaming!” He was extremely daring, this was because of XinFeng and the others. After all, there was dozens of powerful practitioners.

Sha Luo Nei said angrily “Fine, if you want to die, I’ll help you!”

Tuo Luo Niao took a step back, without waiting for the opponent to move, he vigorously waved his hand, the merchant group’s men moved back as if flowing water, revealing Xi Quan and his men.

XinFeng could not help but laugh “This guy is too crafty.”

Hong Chen said “He isn’t crafty, just a bit smart, he dare not ask for help from us, and could only bring us out and let us directly attack the opponent, like that, they will be safe.”

XinFeng said laughing “If we turn and leave, he’ll most likely puke blood.

Xi Quan said “He may not puke blood, but he’ll definitely die.”

XinFeng nodded “Of course, that group of guys are aiming for us now.”

Sha Luo Nei coldly laughed “Where can you retreat to?” He walked closer step by step, suddenly noticing the abnormal expressions of the dozen or so men before him, these men were too steady, they all seemed rather magnificent, their aura different from normal humans, causing him to feel rather suspicious.

“I’ll repeat it again, you can live if you surrender, if you resist, I will kill you wall, choose yourselves!”

Sha Tuo Nei suddenly felt unnerved, he waved his hand and 7-8 men immediately appeared, all of which were low leveled practitioners, their highest ranking member a hundred Lun master, they were the core members of the Sand Bandit group. They lined into a row and moved closer bit by bit.

Qi Tian Yao said “Let me do it, how unexpected for Lun masters to become bandits, how useless.”

Of course XinFeng would not let go a chance to fight, he reached out for a steel spear and laughed “Let me too.”

Yan also walked over and said “Me too.” This kind if low risk battle was the most suitable for her, as she was under Hong Chen’s protection, she did not have much experience in fighting, with such a suitable opportunity, she did not want to let it go.

A few members also wanted to walk forward, but the old man Lei Bao said laughingly “The three of them is enough, anymore.....and it won’t be fun.” Two Milun masters and a Lightning attributed ten thousand Lun master, was already a rather scary lineup, against a group of sand bandits, it was indeed going a bit overboard.

Qi Tian Yao said “I’ll take care of that Sha Luo Nei, I’ll leave the rest to you two.”

Yan said “The rest of the practitioners are mine.”

Xinfeng said petulantly “That’s unfair, normal sand bandits, who is willing to fight them?”

Qi Tian Yao said laughingly “It’s because you’re the weakest here.”

Yen could not help but laugh “That’s right, that’s right, little brother, you’re the weakest here, so you should take care of the weakest sand bandits.”

XinFeng mumbled “If I had more time, the ranking will be different.” As he spoke, he suddenly stabbed the spear into the ground and took out his black bow, viciously shooting out an arrow.

Ping!

That arrow headed towards Sha Luo Nei.

Qi Tian Yao shouted “That’s mine! Don’t snatch it!” As he pounced.

Thousand Lun masters could condense their own Lunli armor, this arrow could not break open the defense of the Lunli armor, but had Sha Luo Duo pushed back non stop, the arrow exploded into small pieces, and then did Sha Luo Nei notice that the archer was a practitioner, if he wasn’t one, then he couldn’t have shot such a powerful arrow. Before he could even speak, he noticed a man charging over, scaring him.

Sha Luo Nei shouted madly “Attack! Kill them!”

Yan also pounced, only XinFeng did not move, he sighed “How unsightly, stealing my prey! I’m not interested in killing normal humans.”

The sand bandits were like flowing water as they charged, many of which aiming for XinFeng, as he was standing the closest to them,

XinFeng had already gave up, but he did not expect that the sand bandits would not, as he gave the impression of being a youngster, incapable of posing a threat, other than his impressive archery, the sand bandits did not expect this little guy to be able to fight, they guessed that if they charged towards him, this kid would start crying.

Sighing, XinFeng kept his bow and plucked out the spear that was stuck

on the ground, and smiled coldly “You guys think I’m easy prey huh? Come!”

“Brother good luck!”

Xinyao’s crisp childlike voice sounded, XinFeng waved his spear, laughing “Little sis watch me win!”

When XinFeng started to attack, it was too late for the sand bandits that charged forward to regret, XinFeng did not move forward, but massacred along a horizontal line, those that crossed this invisible line, would be killed mercilessly by him.

Without using Lunli, he merely used a single spear to kill, a ten thousand Lun master’s offense and defense was not something the sand bandits could compare to. As if wind, in a few moments, a dozen or so sand bandits fell on the ground, the originally invisible line was formed using the corpses of the sand bandits.

Ten thousand Lun masters could condense Ring armors, which was on a much higher level than the one on Sha Luo Nei’s, although the sand bandits could land hits on XinFeng’s body, but his Ring armor’s defense was too strong, adding the fact that XinFeng was lightning attributed, every time a hit landed on him, the lightning on his body would counter attack, causing the sand bandit’s body to tremble, incapable of moving and eventually dying from electrocution.

And within a few minutes, the sand bandits lost about a hundred or so men, their corpses piling together.

In Qi Tian Yao and Sha Luo Nei’s fight, Qi Tian Yao kept playing around with him, in his arm was a spear which he did not use to pierce, instead he used it to hit him, his actions were purely abusing, the steel spear hitting in Sha Luo Nei’s body, creating a ‘pa pa’ noise.

At first Sha Luo Nei could use his Lunli to block, but after a continuous 7-8 hits, his Lunli armor collapsed. The difference in power between the two of them were too much, a Milun master and a thousand Lun master.

Sha Luo Nei quickly noticed something wrong, his opponent was so

powerful that his life was now in danger, among the commotion he also noticed Yan easily massacring his now heavily injured underlings and a youngster killing off hundreds of men, causing his scalp to go numb, he retreated non stop as he shouted “Stop! Stop now!”

Qi Tian Yao scolded laughingly “When you want to fight, you fight. When you want to stop, you stop. What do you take me for?” After speaking, he madly attacked.

After beating Sha Luo Nei until his nose became green and his eyes became purple, his whole body cramping, then did Qi Tian Yao finally stop “Alright, you can let your underlings stop attacking.”

Sha Luo Nei was beaten to the point where his Lunli ran wild in his body, his legs almost giving out, he shouted loudly “All of you fucking stop!”

Tuo Luo Niao also stopped his underlings, the current losses were too much for him to bear, from a total of three hundred or so men capable of fighting, there were only a hundred or so left. Almost two hundred of them fell while the minimum of seventy or eighty men died, he did not want to fight anymore in the slightest.

Both sides stopped fighting, only then did XinFeng realise that he had killed a bit too much people, before him was piles and piles of corpses. One must know that among those that met with his spear, almost none survived, he did not want to continue to fight, to continue this kind of meaningless massacre, although his opponents were evil bandits.

Chapter 11: Mojin City (1)

Sha Luo Nei was stepped to the ground by Qi Tian Yao, he had already lost all ability to resist, he said "Are you a ten thousand Lun master?"

Qi Tian Yao laughed "Qi Tian Yao, Milun master."

Sha Luo Nei scolded in his heart, a Milun master hidden in a merchant group, this was too unlucky, he said "Senior, I didn't know senior was a Milun master, I, I...."

Qi Tian Yao said smiling "Aren't you very powerful? Wanting the woman to stay and the men to strip, hehe, how fucking impressive! Let your underling immediately put down their weapons! And strip!" As he spoke, he released his foot and hugged his elbows, as if looking for fun.

Sha Luo Nei's legs became jelly and attempted to bargain "Put down your weapons.....remove your clothing, can we not do it, senior, this..this, is too unsightly."

Qi Tian Yao viciously kicked his leg and said "Unsightly? You understand what is fucking unsightly? You, a practitioner with the status of a Thousand Lun master, stronger by who knows how much compared to sand bandits, is a sand bandit.....I don't care if it's unsightly, strip!"

XinFeng could not contain his laughter, he did not expect the strict Xi Tian Yao to have such a expression and speak such words.

Sha Luo Nei could not refuse, his life and death was decided by his opponent's single thought, he could very clearly feel that his opponent did not have a large killing intent from his expression which was seeking fun, if he refused, then he would not benefit from it, he did not have a choice and could only shout loudly "All of you out down your weapons and take off your armors and clothes....senior.....I say the armor and be clothes, can we just leave the clothes...."

Qi Tian Yao said "What with all the bullshit, strip!"

A group of men threw down their weapons and started to strip, but Yan quickly said "Don't strip!"

XinFeng remembered that his little sister was still behind, watching, and also shouted “No need to take off your pants!”

Sha Luo Nei heaved a sigh of relief, though stripping entirely did not pose any life threatening danger, but for a thousand Lun master, it would make it hard for him to raise his head in the rest of his lifetime, it was too unsightly.

Qi Tian Yao was originally only pranking them, which was why after Yan spoke, he did not continue to insist but instead waved his arms in agreement, waiting till Sha Luo Nei took off everything but his grey pants, he kicked him and said “Follow me!”

Sha Luo Nei followed him uneasily, reaching the crowd.

Qi Tian Yao said “Go, meet the three elders!”

Only then did Sha Luo Nei notice the three old men, his heart started thumping, Qi Tian Yao was a Milun master, what could be the strength of the men he called elder? He had already viciously scolded Tuo Ta Shi in his heart, he respectfully saluted as he spoke “Sha Luo Nei has met the elders, Sha Luo Nei did not know the elders were here, and offended you.” He was scared to the point of breaking into cold sweat.

Lei Bao and Qi Xuan did not speak, instead Hong Chen did “The stupid matters you all have, we don’t care about it, but you shouldn’t have attacked us.”

Sha Luo Nei wanted to cry but couldn’t, his unluckiness was caused by not only his underlings, but also the merchant group, he already understood that these men definitely did not belong to the merchant group.

“I did not know about elders, I, I apologize, I, I’ll, I’ll pay for the damages....”

Hong chen said “As for how we will settle this, you and the merchants can discuss among yourselves, alright, retreat.” He rarely spoke with a tiny Thousand Lun master, he could not just massacre them, killing all these Sand Bandits would not even give him the slightest feeling of

accomplishment.

Sha Luo Nei said in disbelief “Elder....you won’t, won’t pursue this matter?”

Hong tong laughed scoldingly “You want me to pursue this matter that much?”

Sha Luo Nei was instantly elated “No, no, thank you elder, thank you for your magnanimity!” He kept retreating non stop as he spoke.

Using this chance, Tuo Luo Niao had already brought his men to surround all the Sand Bandits and collected their weapons and armor, facing a group of sand bandits that lost their weapons, he specially ordered his men to catch Tuo Ta Shi.

After separating from this group of scary practitioners, Sha Luo Nei headed towards his own group, although the merchant group was the winner, they did not dare to go overboard, after all he was a practitioner and they did not even have the ability to have a single thousand Lun master to say.

Tuo Luo Xiao brought a few low leveled Lun masters and came before Sha Luo Nei, he said “Your men have already been captured us, what do you intend on doing?”

Sha Luo Nei did not want to continue, this time he met with misfortune, he was too unlucky, he glared and said “What can I fucking intend to do, I lost, you say, what can I do?”

Tuo Luo Niao really did not dare to do anything and said “Leave me one person....”

Sha Luo Nei understood upon hearing his words “You can have Tuo Ta Shi, that bastard, he gave me such a misfortune, even if you don’t take him, I wouldn’t have let him go.”

Tuo Luo Niao said “Other than that, you have to pay for our losses!”

Sha Luo Nei said “Pay for what losses, I also have a lot of losses here, you think that you were the one that defeated us? Without those men, do

you think you can stand before me now? Don't go overboard, if not, I'll fight you.....”

Tuo Luo Niao's heart thumped, he knew that if he had offended this person, he would definitely be done in by him in the future, and at that time it won't be fun for him, he said “So many men of ours died, we will have to spend a lot on the pensions....you cannot leave without paying anything!”

Suddenly a leather pouch appeared Sha Luo Nei's hand, he flung it towards Tuo Luo Niao and said “This is three hundred gold rings, I only have that much, but in return you give us back our clothes, armor and weapons!”

Tuo Luo Niao's mind was in a mess, was he kidding, return the, the weapons, if a conflict was to arise, there would be another battle. He said “You can have the clothes, but not the weapons and armors!”

Actually, Tuo Luo Nei was only saying it for the clothes, not letting his underlings leave naked had already accomplished his goal, that group of practitioners being there for him was already a great amount of stress for him, the earlier he could leave, the better, he did not want to continue to stay here.

He said “Alright, return us our clothes, we don't want the rest.”

Tuo Luo Niao also did not want to continue the conflict, he said simply “Alright, deal!” With three hundred gold rings, it already could subsidize a bit of the loss, of course their loss was not merely three hundred gold rings, but to reach this point, he could only accept his loss, it was because of his lack in strength, this ending was already satisfactory for him.

Sha Luo Nei came to his surrounded underlings and said “Wear your clothes, let's go!”

Within a few moments, the sand bandits retreated as if flowing water, quickly disappearing.

Tuo Luo Niao watched as the Sand Bandits left, sighing in relief in his heart, he said “Bring me Tuo Ta Shi!”

He certainly will exact revenge on Tuo Ta Shi, of course, Qi Xuan and his men did not care.

At this moment, white line flooded the sky, the night has passed.

This oasis was not where Xi Rong nation was at, this was a very small oasis, passing it and walking for another 2 days, they would finally enter the giant oasis where Xi Rong nation was, actually it cannot be called a oasis anymore, a large green land would be a better name for it, filled with hills, swamps and rivers, entirely different from the desert.

After Qi Xuan and his men entered Xi Rong land, they immediately separated from Tuo Luo Niao's merchant group.

They entered a border city in Xi Rong nation, it was a very small city, because of the quartering of the border troops in Xi Rong kingdom, this places had just started prospering, with a fifty thousand population and roughly three thousand garrison. This place was called Mojin city, although it has a small population, but with its gold production, it had a lot of prospectors.

This day, a group of people with two large horned bulls and three Sand Tuo beasts, entered the city.

XinFeng looked at this city with curiosity, it was different from Hong tong city, this city was very messy and dirty, animal feces filling the ground, the roads were even more of a mess, rubbish coming together in piles, insects flying everywhere, the houses on the roadsides rundown, a foul smell causing people to retch. As it was close to the desert, the weather here was also incomparably hot, however most of the people wearing robes with their head wrapped.

Xinyao said curiously "Brother, why are they wearing so much, isn't it hot? How strange, why are their heads wrapped?"

XinFeng said "Wearing robes.....probably to block the sun, en, wrapped heads....look at all those insects, it's purpose should be to block them." He was only guessing.

Yan said "This place is really dirty....and smelly!" They were used to

living in the forest, not only were the air there good, it was also clean, they did not have any chances to see such a dirty place.

There were mostly gold shops on the streets, their signs all stating the exchange of money for sand gold, there was also shops that sold food and brothels, all of which that aimed at prospectors and solders.

Yan said “Master, don’t tell me that we are going to live here?”

Hong Chen said “I don’t know, let’s listen to everyone’s opinions, however, this place doesn’t seem to have a lot of inns.”

The old man Lei Bao said “The atmosphere here is hot and there isn’t a lot of water, pitching a tent in the wilderness is enough, actually we don’t even need a tent, if we find a clean place and light some deworming grass, we can sleep anywhere, who would want to live in an inn.”

Qi Xuan laughed “We don’t need to live in the city, hehe, this place... even if I’m easygoing, I can’t bear this, it’s too dirty.

Hong Chen nodded “That’s right, this is my first time seeing such a dirty place, if you let me live here, I won’t be used to it.”

The old man said “Let’s not stay here and go through the city.”

Just as they were about to walk out of Mojin city, they were stopped by roughly a hundred or so solders of Xi Rong city.

As for the solders of this place, XinFeng was very interested, this was his first time seeing the solders of this world. There wasn’t a country at the mountainous range, it was merely some influenced areas that was different from countries, each influential force did not have a strong organizational structure, the formation of factions was according to the fluctuations of strength, once conflicts arose, factions could come together to discuss and then join together to solve the problems.

Chapter 12: Mojin City (2)

As the countries was different, every country raised a great military force, the military was the backbone of a country, which was why countries must be more organized, more violent, more efficient than sects.

Xinfeng's first impression was that the military force was ordinary, the uniforms worn by soldiers tattered and their weapons also ordinary, their equipment inferior to the hunters of Tiger Cliff Castle. Their leather armors were more so crude, only protecting their chest and their back. The soldier's face were dark, though far from malnutrition, they were definitely not in their best conditions.

Their physique average, without any especially large person. In their hands were lances, the aforementioned lances were merely a long wooden handle with a foot long spear head fitted at the tip, it obviously was not purely made out of steel. To them, this was an unbelievable thing, in their homeland, a wooden lance would not suffice, if a powerful beast was to casually appear, with only a bit of strength, the wood handle would definitely break.

Qi Tian Yao walked forward and asked "Is there a problem?" His expression was cold.

The man who seemed to be leader of the soldiers asked "This two...what kind of livestock are they? How have I not seen it before...."

Qi Tian Yao was shocked as he said "This is the Big horned bulls, is there a problem?" He did not know that the Big Horned bulls were a specialty of mountainous areas and that there was no livestock like it here.

The leader said curiously "This.....Big Horned bull, can it be eaten?"

Everyone was shocked, what kind of a question was this. XinFeng's heart already had a vague guess, he walked forward and spoke "The meat of Big Horned Bulls is not bad, indeed edible, however, rarely anyone eats them as they are the best kind of rideable livestock."

The leader said elated “As expected, I’ve heard people say that beef is delicious, a pity that we don’t have cows here. Right, can you give us a Big Horned Bull?”

Qi Tian Yao said “Give you a Big Horned Bull? What do you mean? How do we give you?”

The leader replied “En, that is we will buy this Big Horned Bull.”

Qi Tian Yao laughed “You want to eat this Big Horned Bull?”

That leader vigorously nodded his head as he spoke “That’s right, we’ve never eaten Big Horned Bulls, that’s why we want to exchange for this Big Horned bull.”

Qi Tian Yao said “Still a no, there are still a lot of things on the Bull’s back, if we give it to you, then no one will carry it.”

The leader said “We’ll exchange two Sand Tuo Beasts for one of your Big Horned Bulls, how’s that?”

XinFeng nodded in his heart, at least these solders did not forcefully take it, they merely wanted to trade, this was a good point of theirs. They were a group of outsiders, meeting their military, if they had tried to forcefully seize their things, unless they had large strength, they would not succeed and they would not be able to redress.

If the opponent had tried to forcefully seize their livestock, Qi Tian Yao could have taught them a lesson, but they only wished for a trade. Actually, the Big Horned Bulls were not very practical, because of the hot climate, they had already shown signs of weakness.

At least they spoke nicely, and Qi Tian Yao did not care much, he said “Three Sand Luo Beasts and you can have these two Big Horned Bulls, you have a hundred or so people, one isn’t enough.”

The leader was elated “If so, haha, I welcome you to the barracks, we have a lot of Sand Luo Beasts there, you can choose them.”

The leader was called Wei Zheng Long, he was the Barrack Commander’s Gaurd leader. Their Barrack Commander was also a weird

person, he loved to eat and frequently has Wei Zheng Long to look for strange things to eat. After a while, Wei Zheng Long became troubled, the variety of food in every place was limited and he cannot easily find new food, which was why upon seeing the Big Horned Bulls he was immediately attracted.

The Barracks were not too far from Mojin city, they quickly reached the Barracks, Wei Zheng Long's underlings had already ran to the Barrack Commander to report.

Upon entering the Barracks, a fat man brought a few men over and said "Zheng Long, I heard you found something good, haha, let me see..."

Wei Zheng Long excitedly ran over and said "Chief, I found the Big Horned Bull....we will have beef to eat!"

The fat man's eyes bulged, he said elated "Ah, is that true, how can there be cows here....Eh, that really is a cow!" Noticing the large physique of the Big Horned Bull, he could not help but swallow a mouthful of saliva.

The old man Lei Bao, Qi Xuan, Hong Chen and everyone else were all shocked, this fat man was definitely unique, watching the Big Horned Bull could actually have made him swallow his saliva, this man is definitely a glutton.

Only then did the fat man greet Qi Tian Yao and his men said "I am the Barrack commander of this Barrack, Jin Da Pang, my nickname is fatty, ah, that's right, Milun master.....may I ask who you are?" This fellow was also an Practitioner and a young one too, no wonder he was already the Barrack Commander in this place.

(Putty: his name is legit, Gold Fat Man. The first word of his name is the same as the city.)

Qi Tian Yao said "Qi Tian Yao, Milun master, nice to meet you, nice to meet you."

Jin Da Pang's attention was on the Big Horned Bull the whole time, side lay hearing Qi Tian Yao's words, he was shocked, this place was very

remote, rarely would practitioners come here, which was why upon hearing the term Milun master, he immediately became alert.

As Jin Da Pang was also a practitioner, and also a Milun master, he had already gotten the qualifications to receive the names of the others.

Yan said “Yan, Milun master, this is my Master, Du Hong Chen, Milun True master.”

Jin Da Pang was really shocked now, Milun True master, that was a expert who had condensed a True Ring Body, just him alone could sweep away the whole barracks, he thought to himself ‘Zheng Long this little, I let you find food, not find a Milun True Master, fuck, I mustn’t offend this sort of expert.’

Xi Quan laughed “Xi Quan, Lun Ying True Master.”

Jin Da Pang’s legs went soft, himself almost falling butt first onto the ground, he shouted his heart ‘Lun Ying True Master, three True Ring bodies! I’ve hit the jackpot, there would actually be this sort of expert in Mojin city!’

Luckily the old man LeiBao did not introduce himself, if he did then perhaps Jin Da Pang would have fallen to the ground. Lastly, XinFeng introduced himself “Lei Xin Feng, ten thousand Lun master.”

The old man realized that other than this old man and a child, the rest of the men present here was at least a Thousand Lun Master, what kind of group is this, how scary, two true masters and a group of helpers.

Wei Zheng Long was also shocked silly, he kept celebrating silently, not knowing why how his attitude just now was so good, he was not so polite in the past, but he didn’t expect that this time’s good mood has helped him keep his life, if he had tried to snatch the Big Horned Bulls p, then perhaps the whole Barracks would be doomed, he was only a tiny hundred Lun master, and he had only reached this title recently. If anyone of this team other than the little girl was to step out, they would be able to kill him,

Jin Da Pang saluted according to the rules and said “Da Pang has seen

the two elders.”

Qi Xuan said “You’re wrong.”

Jin Da Pang’s heart thumped quickly as he hurriedly replied “Elder, where have I wronged?”

Xi Quan pointed to the old man and said “He is my old brother, and also my senior, which is why there isn’t only the two of us.”

Jin Da Pang pitied his heart which felt like it was thumping to the point of exploding, ‘a Lun Ying True Master’s Senior? You’re already scaring me to death, and this old man is even scarier, you can’t do this this, I only want to eat some meat, why scare me.’ He said “I’ve seen the three elders, please come to my large tent, please, please!”

The old man said “That’s good, let’s go sit, we haven’t ate yet, let us borrow the barracks to cook something.”

Upon hearing about cooking, Jin Da Pang became energized as he said “I have the best cook in Mojin city, I also have the best ingredients from Mojin City, please come and taste it, hehe, pardon, I like to eat.”

Qi Tian Yao said “You let your men come and take these Big Horned Bulls, and also, bring 3 Sand Tuo Beasts.”

Jin Da Pang said hurriedly “I did not know it was elder, this, nevermind about the Big Horned Bulls.”

Qi Tian Yao said “No need to decline, we had already agreed on this, no need to go back on it.”

Jin Da Pang said “Alright, Zheng Long, you go take care of it, take three good Sand Tuo Beasts, we can’t let the elders suffer loss, hurry go, hurry go!”

Wei Zheng Long brought a few underlings and took down the goods on the backs of the Big Horned Bulls, only then did they lead it away as Jin Da Pang politely brought the crowd to his large tent.

The aforementioned large tent was merely a tent made out of tarpaulin and felt, however, this tent was very big, and was situated a large empty

space. The sun blocking tent was filled with tables and chairs, the tent seemed very cool, entering the hot outside into the tent, everyone felt a gust of coolness, Xinyao couldn't help but said "It's so cool here!"

Jin Da Pang said pleased "There's a cold spring here, which is why my large tent is very cooling, hey hey, this is the best place in Mojin City, cool and comfortable, pity that we can't build houses here, if not it'll be even more comfortable." This guy was purely looking for enjoyment.

XinFeng said "Brother Jin, why are you at the military? With your strength, no matter where you went it'll still be better than this place."

Jin Da Pang respected XinFeng, a youngster his age is already a Ten Thousand Lun master, you could tell he was a person with unlimited potential, even if he did not curry favor with him, he definitely cannot offend him, who knows what heights he may reach in the future.

Jin Da Pang said "Little brother, in Xi Rong Empire...practitioners that do not belong to sects must all serve the country, the military is actually a very good choice, we are mostly just fighting barbarians, which is why with my strength, no matter the amount of barbarians, I still can run before I'm defeated, I'm also a glutton, with the salary of the military, I can go anywhere, I also can have a lot of men to help me find food, hey hey, I already joined the military when I was a thousand Lun master, it's been a dozen or so years, I've done pretty well.

XinFeng licked his mouth and said "Brother Jin, how respectable, for food you're willing to do anything."

Jin Da Pang laughed complacently and said "Zheng king, lay the best banquet and prepare the most sumptuous food, I want to treat them!"

Chapter 13: Jin Da Pang's calculations (1)

This meal made everyone happy, Jin Da Pang was indeed a glutton, he spoke with extreme profoundness when it came to the various methods of eating. Although XinFeng had eaten countless delicacies in his past life, towards Jin Da Pang's various food creations, he only had respect. This was indeed a man who knew how to enjoy.

Especially Xinyao, the poor girl had always cared about quantity, not quality, suddenly tasting these delicious food, her stomach was quickly filled, causing her to burp for quite a while, afterwards she crooned whilst hugging her stomach, praising the food nonstop.

Jin Da Pang ate until oil started to leak from his mouth, continuously praising the wonderful taste of the Big Horned Bulls followed continuously lamenting about the finished bulls, saying how hard it was to find such good meat again.

Wei Zheng Long brought a few solders to clean up, seeing him, Jin Da Pang instructed him to brew some Ink Flower tea, this Ink Flower tea was the speciality of this place, it aided digestion and was also helpful in dispelling heat in the body, it especially helped digestion, speeding up the process, which was the favorite attribute of Jin Da Pang.

(Putty: as far as I know, there's no flower like that in our world, so I made its name a literal translation, 墨花茶, unless you want the pinyin.)

XinFeng tasted it, this Ink Flower tea was indeed good, though the taste was slightly bitter, the aftertaste was sweet and refreshing. He specially asked for some Ink Flower tea from Jin Da Pang, it was a sun dried flower, it's color black, kneaded into a small ball, upon coming into contact with boiling water, it'll immediately bloom, it was a very interesting drink.

Xinyao drank it and the fullness of her belly quickly disappeared.

The crowd chatted for a bit and purchased a bit of dried food, as for meat, they brought a lot of it from Hong Tong, enough for them to eat for a few months.

The place the old man Lei Bao wanted to go wasn't the Capital of Xi Rong Nation, but was a place called Stellar Night fortress, it wasn't a city but was a place for practitioners, it was extremely famous in Xi Rong Nation, as this place was mostly filled with practitioners. It was a place the officials of Xi Rong Nation avoided, this place was limbo.

(Putty: Uuuuu, I like the name~ 泰朗夜寨, 泰朗 = Stellar, 夜 = Night and 寨 = fortress/camp/stronghold. I figured fortress would be the best in terms of meaning? But I could be wrong.)

Qi Xuan said pleased "Jin Da Pang, have you gone to Stellar Night Fortress before?"

Jin Da Pang immediately felt relieved and said "Stellar Night Fortress huh, this place is very messy, those who hadn't reached Thousand Lun Master better not go, hehe, of course it wouldn't be a problem for the all of you."

The old man said "How far is this place from Stellar Night Fortress?"

Jin Da Pang said "Not far....but not close either, depends on which road you all walk, if it is a shortcut it would take 7-8 days, if it was according to the normal route, then it'll take 20-30 days. There's a problem with the shortcuts, that is you will have to walk a part of an Barbarian controlled area, this road isn't a good one to walk, most people would choose to walk the normal way, but you have to circle around to reach."

The old man LeiBao said "En, let's take the shortcut, do you have a map?"

The old man said continuously "Have, have, Zheng Long, take a map!"

Wei Zheng Ling took a military map, a very detailed skin made map, recorded on this map was the Tribal gathering areas of the Sand Barbarians, it was all edges of oases and the desert, they had to cross a large Sand Barbarian tribe.

XinFeng checked the map and said "You are here at Mojin city to protect it from this barbarian tribe, right?"

Jin Da Pang said laughing "That's right, this is a tribe that has at least

700-800 Barbarian warriors. Actually, no matter young or old, barbarians are all scary, luckily there's some understanding between them and Mojin city, they won't attack us and we rarely had to go and wipe them out, it was mutual peace. Of course if someone took the initiative to go to their controlled areas, they will have the right to attack, we won't go and rescue you, not that we can rescue you."

Qi Xuan said "Wu, you unreliable fatty, you want us to weaken these barbarians."

Jin Da Pang said "I dare not have such ideas, I was only pointing out the two roads that can reach Stellar Night Fortress, hehe." This was a typical scheme, it was placed out for one to choose, if one walked the shortcut one would clash with the barbarians, if one walked the long route, they would not suffer any losses either ways.

The old man Lei Bao nodded "This little guy is pretty smart."

Jin Da Pang had a honest expression accompanied with a pair of innocent eyes as he said "I am only a gourmet, how am I smart, ai, I also hope for myself to become smarter, so as to not always be suffering losses."

The crowd could not help but laugh, this fellow indeed looked to be honest, but no one believed in his honesty, his shrewdness was gathered in his fats, if one wasn't careful enough one might be sold by him.

The old man Lei Bao said "We'll take the shortcut." He did not care about the barbarians, if they dare to block them, then they'll only have to kill. In the meantime they could also train XinFeng's battle skills.

Jin Da Pang was instantly elated, he had wipeout duties every year, it wasn't to wipe them out, but just to weaken their numbers, this time he could finally skimp while reducing the soldiers' casualties, this kind of luck was not something he'll let go of. He laughed "This road is actually very easy to take, comfortably flat and also has many ponds alongside the road, enough for you to fill your water supplies."

At this moment Jin Da Pang had incomparable enthusiasm as he detailedly explained everything he knew.

Qi Xuan laughed “Not bad, you know quite a lot.”

Jin Da Pang said while slightly flaunting “Of course, although I hadn’t been here for a long time, but as for the situation here, I know it very clearly, this road, I’ve checked three times, I can say...even with closed eyes, I’m able to walk it!”

The old man Lei Bao said “If it’s like that.....”

Jin Da Pang still had doubts, he silently pondered “What’s like that?”

The old man continued “If it’s like that, be our guide.”

“Ga, what?”

The old man Lei Bao said indifferently “Be our guide, what’s strange about it?”

Jin Da Pang became flustered “This, that....master, it’s not that I’m not willing, but....”

The old man Lei Bao did not wait for him to finish and cut in “It’s not that you’re not willing....that means you’re willing! That’s great, then we’ll invite you as our guide. You, won’t refuse, right?” A surge of his strong imposing manner charged towards Jin Da Pang.

Just as Jin Da Pang was about to decline and excuse himself, that enormous pressure oppressed him, making him incapable of speaking, his whole body became stiff. Only then did he know that the old man Lei Bao’s strength was reaching the point of terrifying, when that surge suddenly disappeared, he almost fell to the ground, he said flustered “I, I’m willing, of course I’m willing.....keke, e, I am.....willing...” He was almost crying.

XinFeng tried to not laugh, this fellow had an expression similar to “You’ve harmed me and you want my thanks”, he’s unlucky now.

Jin Da Pang wanted to say he could not leave the barracks, but how could he reason with the old man Lei Bao? That would be stupid, although he was a glutton, he wasn’t dumb, he knew he couldn’t refuse and could only smile bitterly “Master, you’re really tyrannical.”

The old man said “You’re not willing?”

Would Jin Da Pang dare say no? Definitely not, he said “I’m willing!” His tone full of resentment.

The old man Lei Bao said “You’re willing by choice, I didn’t force you, where was I tyrannical?”

Jin Da Pang was angered, he spoke with a face with a smile uglier than a frown “Yes, yes, yes, master is the best, not tyrannical in the slightest, kind instead, I was willing by my own choice, my own choice...”

It made the old man Lei Bao laugh out loud.

Jin Da Pang shouted “Wei Zheng Long!”

Wei Zheng Ling came from outside and asked “Sir, what’s wrong?”

Jin Da Pang said none too kindly “You follow me, let’s go to Stellar Night Fortress, through the shortcut.”

Wei Zheng Long instantly became dizzy, he said “Sir, that’s the territory of the barbarians, we’ll be attacked upon entering!”

Jin Da Pang said “Rubbish, of course I know that, we’re there as guides, as for the Barbarians, there’s so many experts, we won’t have to fight!”

Wei Zheng Long said “But what about the matters of the Barracks.”

Jin Da Pang said “I let you follow me, what’s with all the bullshit, go prepare food...for the journey, bring a lot and prepare 10 Sand Luo beasts, bring all the needed supplies, remember, don’t let me starve on the journey!”

The crowd looked shocked at Jin Da Pang, they were a group of a dozen or so people and only had 5 Sand Luo Beasts, this fellow wanted 10 of them while he also had his own Lunchang space, was he there as a guide or there to eat and play.

Jin Da Pang actually apologized “Pardon, I cannot not have good food, if I didn’t have food, then it’ll be horrible, hehe, don’t worry, I had promise to bring everyone go, so I’ll make sure that you’ll go in comfort.”

XinFeng had a weird feeling, he said “Why don’t I feel right.....”

The old man Lei Bao asked “What’s not right?”

XinFeng shook his head “I can’t put my finger on it, anyway it’s weird.”

Wei Zheng Long walked out of the tent to organize the supplies, but he heard Jin Da Pang shout “Bring my copper stove, and right, also some firewood, so to roast some meat.”

The crowd was stupefied, does this fellow intend on moving the whole kitchen.

The happiest one about Jin Da Pang’s accompaniment was Xinyao, she applauded “If Da Pang uncle goes.....I’d have delicious food!” She had never eaten such delicious food before, which was why she was slightly petty. To her, Jin Da Pang was a portable treasure house, when with her, she’ll definitely have good food.

XinFeng smiled bitterly “Yaoyao, I’ll roast delicious food for you.”

Xinyao said softly “Brother, are you silly, you have free food, why roast yourself.”

XinFeng did not know what to say, this child actually had such thoughts, but he quickly cheered up, a small miser can take advantages but not disadvantages, he said softly “Okay, we’ll eat fatty’s, hehe.”

Xinyao laughed pleased.

Chapter 14: Jin Da Pang's calculations (2)

“So this is where you’ve brought us?”

Hearing Qi Tian Yao’s question, Jin Da Pang wore an innocent expression as he said, “Yes, this is the shortest road towards there!”

Qi Tian Yao said, “In front of us is where the Barbarians are, you intend on letting us walk through the Barbarian Tribe?”

Jin Da Pang revealed a honest smile and said “With all of your strength, walking through a Barbarian Tribe is nothing, hehe.”

XinFeng said, “Brother Pang, you’re borrowing a knife to kill humans.”

(Putty: it’s a idiom about how the murderer uses another person to kill someone.)

Jin Da Pang laughed, “Barbarians aren’t counted as humans, I’m only borrowing the road, not any knives.” He did not admit his scheming calculations but instead continued to play dumb.

The old man Lei Bao did not know whether to laugh or cry, they were indeed unafraid of the barbarians, but it was troublesome, the most feasible situation was to find a way to walk through without colliding with the barbarians, but Jin Da Pang purposefully brought them to the Barbarian Tribe, if they walked this route, they would most definitely be surrounded by Barbarians, thus making it impossible to escape resulting in the need of killing their way through.

Wei Zhen Feng ordered a dozen or so soldiers to lead the sand Luo beasts, they need not fight, but only needed to follow the group closely.

Jin Da Pang knew that this group of experts would not kill him for this, at most they would feel displeased, he thought that irking this group in exchange for the decline of the Barbarian tribe would be a profitable deal. Thus so, Jin Da Pang kept a smile the entire time, no matter what anyone said, he kept a good tempered attitude, not refuting at all.

The crowd could not help but laugh, this fellow was indeed a lazy one, throughout the journey, he had tended to their hunger and thirst with

incomparably delicious food and drinks, which was why the crowd did not bother to continue arguing, merely killing Barbarians was not something too difficult.

Qi Tian Yao's group, Jin Da Pang's group and also a group of Sand Tuo Beasts, was a rather eye-catching and quickly the Barbarians noticed them.

Jin Da Pang ordered Wei Zhen Long to bring the soldiers and Sand Tuo beasts to hide behind the crowd, he similarly retreated, standing behind them he had a look of a bystander, causing Hong Chen to scoldingly laugh, "Little fatty, don't be so calculative or you'll suffer."

The old man Lei Bao did not bother with him and spoke, "Feng, you go kill them."

XinFeng relied, "By myself?"

Qi Xuan said, "Let the Wipeout team go too, Feng by himself cannot block the attacks of the Barbarians."

Hong Chen said. "Yan will go too."

The old man Lei Bao smiled, "That's alright too, you guys go, we'll just follow behind, directly charge towards the Barbarian Tribe."

XinFeng nodded, "Alright!" The more experiences he had, the more he felt the possibility of largely increasing his strength, even without the special LunLi skills, merely battle skills, would still give him countless of skills to practice, he could also learn in battle, the Barbarians had many good techniques, quite a few of his skills were learnt from the Barbarians.

Low leveled practitioners needed to go through large amounts of battles, only then can they grow, after reaching a high level, one need not fight as often, the most important point was to nurture one's battle sense and battle courage, without these two, even if one had trained to the level of an high leveled expert, their battle strength would be weaker overall.

The weapons here were all roughly to steel spears, axes and steel rods, there were also some large knives and large varieties of daggers, bows and shields, other weapons were rarely seen. XinFeng had been using steel

spears all along but he actually preferred large knife. Especially barbarians, rarely would anyone use large knives. However the blade of a knife was capable of killing through stabbing when chopping did not suffice.

Flicking his wrist, the Black bow appeared in Xinfeng's hands, he preferred to first use the Black bow and then attack with the Steel spear, there was the Lunchang space after all, taking out and keeping items were very convenient, more so for bows, the usage of arrows were convenient to the maximum, after shooting out one arrow, another would immediately appear in his hands, allowing him to continuously shoot arrows.

Qi Tian Yao charged forward first, with Yan behind him, the other Thousand Ten Thousand Lun Masters walked at the two sides in lines, forming a arrow head formation while Xinfeng walked leisurely behind. Everyone knew that his archery was special, capable of breaking the defenses of barbarians, each arrow had a high change of taking a life, his percentage of kills extremely high.

About two hundred Barbarians gushed out from the Tribe, behind them was also another group of Barbarians. Coming to the entrance to the tribe, to the barbarians, was the start of a life-and-death match, no matter the gender or age, everyone took up their weapons, this was a battle of survival.

The two sides had roughly a thousand meters between them, the Barbarians shouted madly as they charged towards Qi Tian Yao and his men as if a swarm of angry bees. Each of the Barbarians had a large stature, the shortest of them taller than two meters, they all had broad shoulders, thick arms, faces painted with red and white battle marks and their hands wielding weapons, they shouted "Wuwa, Wuwa" as they ran quickly, their large feet leaving heavy footprints, their charge was not inferior to the Sand Tuo Beasts'.

Two hundred or so Barbarians charging together actually gave the aura of an colossal army charging while the other side's charge consisting of the wipeout team along with Xinfeng and Yan, which had merely a dozen

people, could not compare.

The old man LeiBao turned around and saw Jin Da Pang holding on to a meat bone, vigorously gnawing on it, seeing the Old man turning around, he said seemingly embarrassedly, "Before battle, my panic will turn into hunger, which will disappear after I eat."

Wei Zheng Long hid among the soldiers, he was the true embarrassed one, after all his chief was too embarrassing.

The old man Leibao said indifferently, "You all better follow us, Heihei, let's go!" He carried Xinyao and suddenly charged forward, Qi Xuan and Hong Chen both exchanged a glance and quickly followed him as they rushed the Sand Tuo beasts.

Jin Da Pang was scared and quickly threw away the meat bone as he shouted, "Follow them, quickly follow them! Quick, quick! Hurry up!"

A group of men rushed their ten Sand Tuo Beasts and followed, Jin Da Pang knew that if they did not catch up, they would be surrounded by the Barbarians, and at that time, only him would escape without too much difficulty.

The old man Leibao and the two other men was very quick, without the Sand Tuo beasts dragging them down, they would have caught up with the people in front at any time, even taking over them would be easy.

A thousand meters was a kilometer, for a practitioner, this distance was a very short one, with only the passing of a dozen seconds, Xinfeng's black bow started to ring, continuous 'Pings' could be heard as arrows flew out one by one, in an instant, the charging Barbarians fell, causing the Barbarian group to scatter.

Qi tian Yao shouted as he collided into the Barbarian group.

He also wielded a steel spear, 'chi chi' sounds rang madly as a few of the large Barbarians were pierced by him, Yan similarly wielded a spear, the two of them were similar to dragons that arose from the sea, madly killing the pouncing Barbarians.

This group of practitioners' massacre had a silent agreement, none of

them used Lunli, instead they killed normally, however the level of madness in their attacks was much scarier than the Barbarians'.

XinFeng continuously shot out a dozen arrows and with the flick of his wrist, the Black Bow disappeared while a steel spear appeared in his hands which he used to continue massacring the Barbarian group.

Upon reaching the level of a Thousand Lun master or a Ten Thousand Lun Master, the practitioner's strength would have already far surpassed one of a Barbarians', which was why XinFeng and the others seemingly did not fight with much difficulty, they were in a state of charging, they never stopped in a single position, but instead charged forward madly while slicing down onto the Barbarians as if slicing butter, quickly moving through the Barbarian group.

The old man Lei Bao as well as Jin Da Pang and his men charged through the Barbarian group, however Jin Da Pang's group was slower. Jin Da Pang said wailing, "O.....fuck, hurry up!" He could not abandon these soldiers and Sand Tuo beasts, taking out a giant axe, he could only move forward to kill.

Luckily the Barbarians were still in a mess due to the massacre earlier and had not regrouped yet, allowing the previous group to pass through.

Continuously attacking a few Barbarians, Jin Da Pang followed them and charged out, shouting, "Don't stop! Quickly run, hurry! If not I won't be able to save you..."

The second wave of Barbarians came, Qi Tian Yao once again led his men and charged into the group.

XinFeng charged madly non stop as he killed, that sort of excitement made his blood boil, it was too enjoyable. Shouts of Barbarians filled his ears while his entire eyes was filled with the color of blood.

This wave of Barbarians similarly could not stop them, without a minute passing, they opened another bloody path which they had charged through.

Qi Tian Yao shouted loudly, "Don't fight, head onwards! Head onwards!"

Charge!”

Even Yan screamed as she ran forward, this woman had also been excited, her face flushed with red and her eyes wide open, the spear danced in her hands, neatly killing the Barbarians.

Groups of Barbarians appeared from small houses, pouncing without fearing for their lives, the young and old taking up most positions of the groups.

Qi Tian Yao shouted “Don’t hesitate, don’t stop, kill!”

XinFeng charged to the front lines, he also needed to battle, to hone his skills, this kind of the chances were the best, firstly because of the good defense and the experience of the Barbarians, all sorts of skills were worthy references for him, merely shooting arrows behind could not let him train to the maximum, which was why he ran to the front lines to fight side by side with Qi Tian Yao.

Though Qi Tian Yao was busy, he smiled towards XinFeng, he admired this youngster, to be capable of taking the initiative to come to the front lines, proving that this child had a heart of a warrior.

Not everyone was suited for battle, there are some Thousand and Ten thousand Lun masters, or even Milun masters, afraid of battles, and more so for cruel killing, those kind of people would always choose to join a sect or an influential force and become a teacher.

A burly Barbarian pounced over with a shout, his hand holding a humongous axe the size of a small car’s wheels, with a flash of light, the axe chopped downwards with a shout, the large axe head aimed towards Qi Tian Yao.

Qi Tian Yao’s body moved slightly and the steel spear was thrust out, avoiding it, the barbarian turned sideways and the axe in his hands suddenly changed direction and swept towards Qi Tian Yao.

Wu!

XinFeng shouted “Careful!”

Chapter 15: Manslaughter (1)

Qi Tian Yao dodged and also shouted, "There's one more!"

Behind the burly barbarian was actually another barbarian, a young dark skinned barbarian who wielded a steel spear similar to Xinfeng's, he suddenly appeared under that barbarian's arm and pierced at Xinfeng's chest.

XinFeng raised his arm and in an instant from the steel spear appeared a flash of lightning, causing the young barbarian's body to tremble.

The head of Qi Tian Yao's spear suddenly rose up and with a 'ding' sound, split open the axe, as all of them moved very quickly, after exchanging two moves, the others had already charged over, but his spear head had already been thrust out.

The spear head pierced at the heart of the young barbarian from his back, causing the still trembling young man to fall to the ground.

A group of men had already flitted past as if wind without stopping before the burly barbarian and the young barbarian could react, that barbarian shouted many times and as he stood up, he noticed that a fatty charging over with a roar, swung his axe upwards to chop the fatty down.

However Jin Da Pang was not a pushover, though gluttonous, he was also a Milun master, much stronger than XinFeng. He closed in to the barbarian's bosom and viciously collided with his chest, causing a large explosion of strength.

The barbarian only felt a flash of pain at his chest followed by a barrage of 'Kacha' noises, his ribs had actually been shattered by Jing Da Pang's tackle. Jin Da Pang was similar to a speeding train, causing that barbarian to be sent flying. Seeing the young barbarian's attempt to stand up, he continued to charge and stepped on the young barbarian, due to his weight and the strength purposely placed behind his step, another 'Kacha' sounded and the young Barbarian fainted with a painful cry.

Behind Jin Da Pang was ten Sand Tuo beasts, ten soldiers and Wei

Zheng Long, they all madly dashed over and madly stepped on the young barbarian one by one, when the group walked passed him, that young Barbarian had already become unrecognizable, stepped to death by this group of people.

Gradually, the barbarians noticed something, as this group of people was not here to kill, they only routed the blocking barbarians. If they could kill, then they would do it without hesitation, but if the barbarians retreated, they would not bother to give chase but merely walk past them. Noticing this the barbarians did not continue to block. Though barbarians are very barbaric and mad, they weren't stupid, if they were then they would not have battled with humans for such a long time.

Similar to a devastation that swept everything away, this group of people killed their way through the Barbarian tribe.

Throughout the road, there were many corpses and casualties, they ran whilst killing. Though Jin Da Pang chased them from behind, he was still very happy, he estimated roughly 70-80 deaths for the barbarians, and there were even more heavily wounded, just like this they crippled the Barbarian Tribe's forces by half.

Similar to a gust of strong wind, the whole team passed through the Barbarian Tribe within 10 minutes. The Barbarian Tribe was rather big, taking up roughly three kilometer square, their mud and thatched houses scattered about, there were also some made of wood, overall it seemed very primitive.

The person that caused the most frustration of the Barbarians was Jin Da Pang. When this fellow passed through the Barbarian Tribe, he would shoot out balls of raging fire, the houses that he passed would most definitely go up in flames. His path was of flames and death. Jin Da Pang's goal was very simple, which was to kill as much as possible and create more chaos.

The soldiers under him ran with all their might, their faces pale. Who are they kidding, barbarians surrounded them who were normal humans, if any of the barbarians were to pounce on them, they would be incapable

of defending, and if they were unable to escape, they would definitely be eaten, all of them knew that humans were always one of the Barbarian's prey.

Wei Zheng Long shouted nonstop "Run, run faster....motherfucker, run faster, if you fall out from the team blame your unluckiness.....no one will help you, run!"

Even though the soldiers were capable of barely keeping up, there was still one soldier who was unable to escape. This unlucky fellow was hit to the ground by a barbarian, if he were to climb up and kept running, perhaps he could have escaped, but the cause of his demise was that he had sprained his foot, escaping through hobbling was practically impossible, one must know that this group of people were sprinting with all their might. Quickly he was surrounded by the chasing barbarians.

Hearing that soldier madly wailing miserably, all of the soldiers felt fervent and ran even faster. Wei Zheng Long kept shouting, "Fuck, be careful of your footing, be careful, don't fall down, if not no one can save you, hurry, hurry, Hurry!"

One of the soldiers ran and wailed, "I can't run anymore.....I can't....run anymore....I, I will die...."

Wei Zheng Long chastised loudly, "If you can't fucking run then go die! Why shout....hurry, hurry, run faster!" He was extremely worried, the opponent had already closed the distance between, if it wasn't for Jin Da Pang who was between the two groups killing the charging barbarians, they would have definitely been surrounded, but this situation was already pretty terrifying.

Finally all of them escaped the Barbarian tribe through killing.

After madly running for a while more, the barbarians behind gradually stopped chasing, only leaving a few barbarians who still felt unsatisfied.

Qi Tian Yao raised his steel spear and shouted, "Alright! Stop!"

The two groups stopped, Jin Da Pang turned around and saw that none of the ten Sand Tuo Beasts were lost, but he did lose two soldiers, one who

unluckily fell in the Barbarian's lands while the other one did escape, but when they stopped, he fell head first to the ground and died, he was that one that wailed nonstop, his heart had burst due to the fatigue.

XinFeng stopped with a little sweat on his forehead, this bit of distance was not much to him, but it was too stimulating, the excitement causing him to sweat.

Xinyao came down from the old man Lei Bao's embrace, she had gotten used to watching massacres, since leaving Tiger Cliff Castle, she had gradually adapted to this sort of situations, as to her, this was a good thing, when she starts to train in the future, she would not have any opposition towards killing.

The old man Lei Bao smiled, "Feng, how was it?"

XinFeng replied, "Exciting, fun, I hadn't massacred like that before, it made my blood boil."

The old man Lei Bao, Qi Xuan and Hong Chen all laughed loudly. Actually they were embarrassed to fight, as their level was too high, they do not attack barbarians anymore, fighting them was like a brute bullying an ant, it bore no satisfaction, but watching their juniors massacre brought on another feeling.

Jin Da Pang was instead in the midst of reprimanding his subordinates, "Zheng Wei, what did you choose? I let you select a few stronger soldiers, fuck! One idiot fell in the Barbarian's land and is probably being eaten, the other died running! Too fucking weak, how do you train them normally? This isn't even a battle, just running.....fuckers don't even know how to run..."

Wei Zheng Long felt unhappy, he had already found soldiers that were very strong, but how could they compare to this group who had such abnormal practitioners, if it were a normal soldier, he would have definitely died from fatigue or perhaps couldn't even catch up, but even so, only two of them died. He dare not refute, but continued to listen to Jin Da Pang as saliva spewed out of his mouth, he understood that Jin Da Pang's heart was in pain. This fellow had always shielded his

shortcomings, with two deaths of his underlings, his mood would definitely be horrible.

Yan stood at the side, thinking back to the massacre earlier. For her, this kind of massacre was rather rare to participate in, which bore large benefits. Fighting with the weaker barbarians and then gradually with people with acceptable levels in the future, it would help her obtain a good battle sense, this was her motive for fighting, her reason for killing barbarians.

XinFeng was also reflecting, this sort of fight also gave him a lot of benefits, according to the old man's teachings, there was no shortcuts in battle. He merely needed to keep fighting to strengthen himself and nurture a battle sense, especially during his youth, once he had done so, his strength would surpass those on his level.

In this battle, the two who had the most rewards would be Yan and XinFeng, this was why the old man did not oppose the idea of charging into the Barbarian Tribe's land.

There were barbarians wandering far away, they already knew that this group was at the level where they could not defend against, which was why they did not attack, but merely monitored from afar, hoping to see them leave.

They rested for a moment and left as this place was not a suitable place to rest.

Here was the boundary line between the desert and the oasis, it did not lack vegetation or water sources, under Jin Pa Pang's guidance, they came to a small riverside at evening. The small river was rather good, with shallow clean water. A few thousand Lun masters went to hunt.

This place had the famous SandThorn chicken, an extremely well known delicacy.

Under Jin Da Pang's recommendation, Qi Tian Yao sent a few underlings with Jin Da Pang to go hunting.

As the bonfire was lit, Jin Da Pang came back with a few people after

hunting. To Lun masters this sort of hunting was simple, they had hunted about a dozen SandTorn chickens together.

Jin Da Pang said regretfully, “A pity that there isn’t too much time, if not we could have hunted even more SandTorn chickens.”

The SandTorn chickens were not big, according to XinFeng, this SandThorn chicken was only a bit bigger than the doves of his past life. The SandTorn chickens was a holy ingredient of soup, SandThorn chicken soup not only had a splendid taste, it’s meat was succulent and tender, with a small cooking time and could be eaten after boiling.

Jin Da pang was indeed a glutton and a gourmet, he personally cooked a few large pots of SandThorn chickens, personally handing the three True Masters each a large bowl, the old man Lei Bao then passed it to Xinyao, causing XinFeng to laugh, “Brother Pang, good job with your sucking up!”

The crowd bursted into laughter and Jin Da Pang said without a change in expression, “I was respecting the elder! Little bro, don’t worry, brother Pang will also suck up to you.” And as he spoke he also passed a bowl to XinFeng.

XinFeng tasted a mouthful and could not help but say, “What a good soup!”

Xinyao also said “Brother, this soup is so delicious...”

Qi Xuan and everyone else were also amazed, this SandThorn soup is truly delicious.

Chapter 16: Manslaughter (2)

Jin Da Pang said overly pleased, "This is one of the best specialities in Xi Rong land, it is only produced on the boundary line between the desert and the oasis. There was only this one SandThorn chicken, if it was a live chicken in the capital of Xi Rong land, a single one would be worth a gold ring, unless you're rich, you definitely won't get to eat it."

Xin Yao smacked her tongue, "Wa, so expensive! I want to drink more! Xixi."

This was a joyous meal, even the soldiers drank a large bowl of SandThorn chicken soup each, though they could not get along with him, following this General Jin Da Pang, in terms of food, they could definitely enjoy eating all kinds of odd delicacies.

Though Jin Da Pang frequently rebuked his underlings, his underlings were all very loyal.

After a night of rest, the crowd continued their journey.

.....

After a few days, a group of men entered Stellar Night Fortress's area. Without even walking a long distance, they had already met with a wave of robbers, moreover, they were all practitioners, most of them were hundred and thousand Lun masters who were killed by Qi Tian Yao, XinFeng Feng and Yan as they pissed themselves.

Not knowing why, after entering Stellar Night Fortress, they continuously met with attempted robberies, after killing a group of people and walking another small distance, they would be assaulted yet again.

Jin Da Pang said curiously, "Stellar Night Fortress was already said to be in chaos in the past, but this is my first time truly learning about how messy this place is, it is too strange to outsiders, why are there so many robbers? Are they in need of money?"

The old man replied, "If you're curious, then don't kill them all, catch a few of them and ask, you'll get your answers then."

Qi Tian Yao nodded, "That's right. Feng, sis, later let's catch a few then kill the rest!" After being together for a period of time, they had started to become used to each other, casually calling each other brothers and sisters, seemingly very close.

XinFeng replied, "Big brother Qi, Sister Yan, I'll take care of electrifying them, you guys will catch them!" He had used this trick to slow down enemies, it could also cause them to lose their strength, actually, he had a lot of Lei Lun Li tricks that he hadn't used yet. It's not that he did not want to, but the old man had asked him to not use it too much, as once he had gotten used to them, he wouldn't be willing to engage in close combat anymore, losing the purpose of going into battle.

Jin Da pang was the reserve of these three people. Normally only the three of them fought, but if there was too many attackers, he would have to assist them. As for the wipe out team, they were commanded to take care of the Sand Tuo beasts by Qi Xuan, who did not allow them to fight. He had already noticed that the old man Lei Bao wanted to train XinFeng, Hong Chen had also agreed as he wanted to let his disciple fight.

.....

2 days passed yet again.

As they were reaching Stellar Night Fortress, XinFeng assumed that they would not be in anymore danger, but they yet again met up with a robbery by practitioners.

XinFeng said, "No wonder no normal human would dare enter this place, robberies happen too frequently, strange, are all these people mad?"

Jin Da Pang said unsatisfied, "I don't know if they're crazy, but I'm already going crazy, is there an end to this....so annoying."

XinFeng said, "Brother Pang, no one forced you to fight, it was always me, brother Qi and sister Yan who fought, what's being an annoyance to you?"

Jin Da Pang said, "Annoying!"

Xinyao kept laughing, she liked to see Jin Da Pang's troubled expressions, it was fun. Within this few days, Jin Da Pang kept sucking up to the little lady, giving her all sorts of snacks non stop, he knew that if he gained the favor of the little lady, he would benefit from it as the old man doted on the little lady a lot, he could tell clearly, that was why to him, sucking up to the little lady was equivalent to sucking up to the old man, this was definitely true.

Jin Da Pang took out a bunch of special jerkies and passed them to Xinyao, "Yaoyao, eat a bit of these meat sticks as you watch your brother kill people."

Xinyao took them without modesty and said, "Thank you brother Pang."

Jin Da pang laughed non stop, "Good girl Yaoyao!" From the start, every time he shouted Yaoyao, the little lady would roll her eyes, after a whole journey of sucking up, the little lady finally accepted it.

This time the robbers did not even ambush them, they instead blocked the way, daringly attempting to rob others with a total of 7 people. No one knew why they were so daring, the strongest of them was only a thousand Lun master. They actually dared to attack a group consisting of people that surpassed the thousand Lun master level.

"Put down your valuables, your Sand Tuo beasts, en, and also this woman, after that the rest of you can leave!"

Qi Tian Yao was angered to the point of laughing, "These fellows must have some problems in their brain?"

Yan was angered by the sentence of leaving the woman, she walked forward laughing, "You want me to stay?"

That group of men laughed mockingly, "Yes, yes, leave the lady!"

One of them even said vilely, "Master, I, am lacking a lady to warm my bed, you'll just have to take on that role, haha, white and tender, fitting to my taste!"

Another fellow said, "Hey, why is it your's? It belongs to all of us!"

That group of men laughed, each of them gearing up eagerly.

Yan's face had already become green, she suddenly laughed coldly once.

After this period of fighting together, Xinfeng knew clearly that Yan was furious, he smiled at Qi Tian Yao, "Sister Yan is going to kill people."

Qi Tian Yao nodded, he also knew Yan was furious, he said, "Alright, letting them experience a bit is also good, I just don't understand why these people would come one after another to rob without caring about their lives."

Yan viciously pounced out, she did not speak anymore and directly ran out to kill.

As the opponents' strongest was only a Thousand Lun Master, and a majority of them were hundred Lun masters, they could not compare to a Milun master and she instantly killed one of them, the opponents were almost scared silly, shouting nonstop, "Stop, stop!"

Yan shouted loudly, "Stop your fucking head! Kill!"

Qi Tian Yao said, "Interesting, these robbers always shout to stop when the battle starts, hehe, asking to stop after the battle started, isn't that too dumb...." Before he could finish, Yan had already killed three men, the opponents had no strength to resist, as there was a large distance between them, even Xinfeng did not get to participate in the battle.

Yan easily killed four men within a few moments, Xinfeng who suddenly remembered, shouted loudly, "Sister Yan, leave a few alive!"

As he spoke this one sentence, Yan killed yet another 2 people, leaving only one man left, if Xinfeng did not shout at that moment, then perhaps she would have already wiped out everyone.

Kicking the last man to the ground, she stepped on him and said, "Luckily, there's one left, my rationality was almost blurred out by my anger." Using strength to step on that man, she lowered her head to his level and asked, "Do you still want me to stay? Hmph, even if I did, would you be able to live?"

That man was already crying a due to the shock, he said, "Spare my life....you guys, you guys didn't follow the rules!"

The crowd surrounded him, XinFeng squatted down and asked curiously, "Follow the rules? We need to follow rules?"

That man said with tears in his eyes, "We guard the road, you people attempt to pass us, just by beating us, you can already pass through, is there a need to kill us!"

XinFeng and the others looked at each other, completely incapable of understanding this fellow.

Yan viciously stepped on him again, "Then what's with wanting me to stay?"

That man cried, "It's just a joke, anyways we're not allowed to kill anyone, taking a bit of advantage from others shouldn't lead to our deaths!"

This time everyone noticed a problem, Qi Tian Yao said, "You guys.....aren't allowed to kill anyone, what does it mean?"

That man cried, "We are the disciples of various sects sent out for training, killing each other is not allowed, in return we can get each other's equipment after the fight, of course things in their Lun Chang space can not be touched, not that we can in the first place....but, but you guys.....come and kill....you, you guys didn't follow the rules..."

Suddenly that man trembled, seemingly remembering something and said, "You....you guys aren't disciples that had came here to train?" Now did he react, these disciples did not understand the dangers of the outside world at all, they even took on the image of a villain, not dying was difficult.

The crowd then understood, no wonder there was so many robberies, no wonder they were so weak, no wonder when they started the fight all of them chickened out. With Qi Tian Yao, Yan and Xinfeng's strength combined to massacre, they did not even have the time to explain the situation.

With their battle experiences, once they started battling, it would become a battle where one side would definitely die, there would not be the slightest of mercy, adding in the fact that they were strong and did not take any captives, of course they did not know that there were a large group of disciples here.

XinFeng said, "This part is weird, don't you see that we're different from other training disciples? Why would you attack us?"

That man cried even more, "There are disciples that hide among other groups, trying to sow discord and create confusion, so we...."

The old man Lei Bao coughed and said, "What are the sects involved in this activity?"

That man counted with his fingers as he spoke, "There's Golden Sand Faction, Great Eagle Sect....Sand Tuo Group, Green He alliance, Great Tranquility Sect..." Within a single breath he reported the names of roughly 20 sects.

Lei Bao nodded and with a flip of his finger, a silver light flashed and that man died instantly on the ground.

He needed to kill him. On their way, they at least killed off hundreds of men, if this was revealed, it would be very troublesome, although the old man Lei Bao was not scared, but these kinds of this are best kept a secret.

Actually they had already poked the hornet's nest, so many disciples in training died on their way here, luckily they had a habit of burning the corpses, but with the passage of time, those sects would eventually notice something suspicious.

A few sparks of fire flew out and the seven corpses were burnt to ashes within seconds, the old man Lei Bao said, "Let's go, we shouldn't stay here, Pang, we better scorch the ground to clear away the traces of our presence here."

And at that moment, two men ran speedily towards them from afar.

Trouble had come.

Chapter 17: Stellar Night Fortress (1)

Two Milun masters, one could tell from a glance that these two were important figures from a sect, the two of them were extremely fast, after seeing their silhouettes, in an instant, they were already close. The old man Lei Bao, Qi Xuan and Hong Chen were all silent as they looked indifferently at the two men headed their way, the others similarly stood without moving, silently waiting for them to arrive.

XinFeng softly said, "They should not be disciples in training, but the elders of the sects."

The old man Lei Bao said coldly, "I hope they did not notice anything."

XinFeng shivered, he knew the meaning of this sentence clearly, it meant that if these 2 men were to find out something, then they would not be able to leave alive.

The old man Lei Bao always gave him a feeling of kindness, but after he recovered, some of the old man's actions let him understand that the old man only treated him and his sister well, as for outsiders, he couldn't care less, if the need arises, he would kill or fight them cynically. Of course XinFeng did not care, as to him, the old man was his family, he would not mind about other things.

When the Milun masters noticed them, they sped over, quickly reaching the crowd.

ZhongZhong was the chief elder for the outer Sect of the Great Tranquility sect while Hong Sha Fei was the steward of the War eagle hall of Great Eagle sect, both of them were Milun masters that had received instructions of their own sects, there were a lot of disciples in training that suddenly disappeared without any news of them. The instructions they had received was to protect the rest of the disciples, ending this training event early.

The two of them came before the crowd and Zhong Zhong asked, "Did you see a few youngsters?"

Qi Tian Yao replied, "No, we did not see any youngsters." He of course completely denied.

Hong Sha Fei looked around and suddenly said, "Old Zhong, hurry here!"

Zhong Zhong quickly came next to Hong Sha Fei and was stupefied while looking at where he pointed, there were traces of burns on the ground, he could tell that it was raging fires generated with Huo Lun. Within an instant, he understood, this wasn't the marks of a battle, but the marks of a cremation.

Hong Sha Fei squatted down and touched the ground with his hand, grabbing a handful of soil, and as he inspected it, his expression changed, through experience he could tell that a body was cremated here, the soil had grayish white burnt bone fragments.

Zhong Zhong's face immediately became pale and pulled Hong Sha Fei to retreat, but as he did so, he noticed that he was already surrounded.

Qi Tian Yao was not dumb, as Hong Sha Fei squatted down, he gave silent orders to surround these two men, as the two men found out about the ashes as they were still on the site, even if they were really innocent they wouldn't be easily cleared of suspicion, the only way out of this was to eliminate these two men.

XinFeng mentally shook his head, he had also went up and surrounded them, he knew that these men cannot be released, if they escaped, then perhaps all of the sects would be coming for their lives.

Qi Xuan and the old man Lei Bao glanced at each other, this troublesome matter must be taken care off, killing two men was definitely much better than exterminating countless small sects. Within this single glance they had already reached an understanding, they cannot let these two men go.

Zhong Zhong said solemnly, "Who are you all?"

Hong Sha Fei was even more on guard, he had already noticed that these men were not normal humans, they had fearsome strength, "I am the steward of the Great Eagle Sect, Hong Sha Fei, a Milun master, why did

you kill our disciples in training?”

Zhong Zhong said, “Great tranquility sect, Zhong Zhong, Milun master!”

The two of them had the same idea, it was to not let the opponent move easily, which was why they immediately revealed their levels and sects. Milun masters was already considered to be on a high level, of course, to a True master, Milun masters are lacking far too much. There were countless Milun masters, but those that reached a True body, True Milun Master, are very small in number, within a hundred Milun masters, barely five will be able to become a True Milun Master.

Thus so, Milun masters among the practitioners were rather fearsome, but they did not imagine that within this small group, were actually three True master super experts and that their attempts of deterrence were completely ineffective.

Qi Tian Yao did not explain, neither could he, what could he tell them; because they attempted to rob us, we killed them? Thus so, no one explained, they all knew that, unless the opponent did not come, it would become a situation whereas the opponent will only stop after his death, there was no respite, their only choice was to let these two men stay, they cannot let them escape.

At this moment, neither Qi Tian Yao, Yan or XinFeng had the thought of collecting battle experience, Qi Tian Yao said, “I apologize, whoever we are, you don’t need to know anymore.”

Qi Xuan said, “Old brother, are you doing it, or me?”

Lei Bao felt embarrassed to strike, they were mere Milun masters, if he were to attack, then it would be the same as bullying children, he reached his hand out, “Old brother, please do!”

Qi Xuan nodded and smiled, “That’s alright too, it’s been a while since I fought.”

Hong Chen said, “Let me do it, hehe, I haven’t been doing anything, I’m already rather embarrassed.”

Qi Xuan replied, "Alright, since you're itching to fight, then do it."

The three of them modestly speaking with each other, Zhong Zhong and Hong Sha Fei became pale, though the three of them concealed their aura, but their tone and carefree expressions were suspicious to the two of them, a tinge of suspicion flashed past then, could it be that these three men were True masters?

Zhong Zhong and Hong Sha Fei dare not continue to hesitate, as they had good understanding between them, the both of them shouted at the same time and suddenly pounced in two different directions.

Hong Sha Fei charged towards Qi Tian Yao while Zhong Zhong charged towards XinFeng.

Qi Tian Yao shouted, "Go the fuck back!"

The two of them collided head on, in an instant, an explosive sound was heard and the both of them retreated, they were both Milun Masters, there was a small difference between their Lun Li, Hong Sha Fei was incapable of breaking through Qi Tian Yao's block.

Zhong Zhong who charged towards XinFeng causing XinFeng to suffer quite a bit. He was forced back continuously, however XinFeng had Lei Lunli, causing Zhong Zhong to suffer too, one must know that electricity has always been peerlessly overbearing, though XinFeng used the lowest leveled Lei Lun Li, he was still successful in causing Zhong Zhong to tremble for quite a bit.

Hong Chen shouted, "Both of you move back. It's my turn!"

He hit Zhong Zhong with his fist, actually this was thanks to Xinfeng's Lun Li, Zhong Zhong was still quivering, seeing a man's fist heading his way, his hands and legs could not react in time, it was practically impossible to resist. He could not help but shout, he was very frustrated, and the Mi ring armor on his body gave off eye piercing light. To block this attack, he desperately infused his Lunli into his Mi Ring Armor.

Hong chen's gentle punch had shattered Zhong Zhong's Mi Ring Armor as if it was paper, this punch landed onto his chest as Zhong Zhong

watched it, as he watched, pain quickly followed and his vision blacked out, he was killed by just this punch.

Only one punch ended the life of a Milun master, Hong Chen shouted once and pounced towards Hong Sha Fei.

Hong Sha Fei's nostrils contracted, he was terrified, as another Milun master, he could not believe that Zhong Zhong did not even have a chance to resist and was killed with a punch, a thought flashed in his head and he could not help but shout, "Stop, you are a True Master, you cannot attack me!"

Hong Chen had already pounced before him and said, "Idiot! Go die!"

Hong Sha Fei dare not block, he dodged to the side and charged, in his head was only one thought, that was to run!

Pa!

Yet another gentle punch landed on Hong Sha Fei's back where his heart was.

Hong Sha Fei had concentrated all his Lunli onto the Mi Ring armor on his back, in an instant, his Mi Ring Armor shattered, but it had a different result from Zhong Zhong he had concentrated all of his Lunli into his back, though it also shattered, he had also spread most of his strength, with this punch, he was like a kite whose string was cut, he flew past the surrounding people and landed outside, landing on both of his feet, he ran.

Hong Chen said, "Clever fellow, but, you can't escape!"

Hong Sha Fei spat a mouthful of blood, he already knew that his organs had been ruptured, entirely relying on his Lunli for support, he raised his hands and summoned a Lunqi.

That Lunqi made a "Wu Wu" sound, instantly taking to the skies and exploding in it, this was a signal of an attack and a request for help, this was also the most severe and high leveled signal.

The old man shouted, "Kill him!"

Hong chen's face instantly became red, he had never felt so shameful, he was humiliated. Instantly becoming crazy, he pounced towards him as he scolded, "You mother fucking bastard, I'll crush you!"

Hong Sha Fei staggered a few steps before understanding that he could not escape, thinking about how he had gave a signal, he could not help but reveal a savage smile, turning around to the pouncing Hong Chen, he said, "We the Great Eagle sect.....will not let you go!"

Hong chen's palm slapped downwards, scolding, "Idiot, originally only you would have died, now your whole sect will die!"

Hong Sha Fei was instantly enlightened, this group's identity definitely had problems, his signal could either be a blessing or a disaster, extreme dissatisfaction appeared on his face as he was killed by Hong Chen's palm.

XinFeng smiled bitterly, Hong Chen was right, this man was an idiot, if he had died silently then perhaps the others would be safe, but if they were confirmed as the murderers and attract large amounts of attackers, then who knows how many casualties there will be. With their group of experts, normal small scaled sects would not be a problem, especially their team, there was a super expert, a real demon, the consequences of angering him, even XinFeng did not dare to imagine.

The old man Lei Bao said, "Alright, let's go."

Qi xuan said, "Burn these two bodies!"

Qi Tian Yao said, "Leave it to me!"

Chapter 18: Stellar Night Fortress (2)

They quickly packed up their things and destroyed all of the traces. Jin Da Pang did not dare to continue guiding them through the original route and instead went the other direction, they needed to at least enter Stellar Night Fortress through another direction.

Jin Da Pang specially ordered for them to try their best to not murder during this route, as well as to not scare anyone.

Weaving through the main route, they entered a thin forest, upon entering they already noticed someone heading towards where they had just came from.

Carefully and swiftly hiding, they softly trekked through the forest as long whistles resounded outside of the forest, that was the unique communication method of this place. The old man Lei Bao's expression was obviously bad, with his temper, he certainly wasn't one to care whether he was found out or not, he would just kill them and get over with, whoever got in his way would just die, but after taking a look at XinFeng and Xinyao, he sighed softly, nevermind, after all he wasn't alone.

They rushed through the entire night until the second day before reaching another main road, entering Stellar Night a Fortress through this road would erase most of the suspicion on them.

Jin Da Pang suddenly understood, he immediately gave orders to let his soldiers change into normal clothing. No wonder they were mistook by the disciples in training on that route, it was because they came from the direction of the Barbarian tribe. That route was deserted, no one would come from there, so naturally they were mistook to be enemies upon appearing.

Originally they were already close to Stellar Night Fortress, after a night of rushing, they reached another road and the sky was already bright. On the road they could see a good amount of people walking and motorcades, there was also teams formed with Sha Tuo beasts.

XinFeng laughed, "This road is for people, the road earlier didn't even have a single silhouette, hehe."

Jin Da pang said, "Of course, we were the ones to walk it, other than us, who else would walk that road? Hehe."

XinFeng said, "Grandpa, is there a specific address we should go to in Stellar Night Fortress?"

The old man Lei Bao nodded, "En, I have an old friend there, and some other friends.....maybe they have already arrived." He spoke with a rather emotional tone.

XinFeng thought for a while before understanding why the old man was emotional, after he was hurt, he did not plan on meeting his previous friends, now that he had come out once more, he could meet his old friends again, feeling emotional was normal.

Noon the same day, this group of men had finally entered Stellar Night Fortress.

It was a large empty space, there were countless tents and simple dilapidated cottages, it was similar to MoJin city, this place was very dirty and the air was polluted, rubbish filled the ground without anyone cleaning it, there was also a large water hole that gave off a putrid stink.

XinFeng watched on with disbelief and said, "Grandpa, this is Stellar Night Fortress? My god, it's too smelly!"

Xinyao also punched her nose, "Grandpa, brother, smelly!"

XinFeng smiled and he picked up Xinyao, "Your brother, me, is not smelly, Yaoyao, bear it for a while."

Qi Xuan and Hong Chen were both astounded, this place was too messy, they had just entered and were already greeted with a corpse that seemed to have just been chopped to death.

The old man Lei Bao smiled, "Even though this place is messy and smelly, to these people, this place is a good one, hehe, this is the outer ring of Stellar Night Fortress, we need to go through this place and the

forest inside it, at the front there should also be a river.”

XinFeng slightly observed their surrounding and said, “Eh, shouldn’t this place be free of normal humans?”

The old man Lei Bao laughed, “Of course, they are not considered normal humans, all of them are fugitives, as the officials cannot care for them in Stellar Night Fortress, while the practitioners could not care less, thus this place was outlawed. In this place, if someone irked you, the only thing you can do to them is to kill them, of course, if you are weak, you will be killed instead.”

Yan said, “Senior, that should be the killings between normal humans, it doesn’t concern us practitioners.”

The old man Leo Bao replied, “It’s roughly the same thing with the practitioners, there really is no difference, it’s just that the strength displayed is different as well as the killing capabilities of the practitioners.”

Quickly this group of people weaved through the messy residential camp site, on their way through, no one dared to irk them, if the people here lived in this place without observation skills, then they would have already been killed, those that weren’t blind could tell this group of people were dangerous.

The forest was not vast, within a dozen minutes, they had reached a small river which had a small stone bridge built across it, there was a building on the other side, this structure was completely different, it was made entirely of masonry, it was a small yet beautiful building, the ground surrounding it was very clean, giving an impression to XinFeng that the poor residents belonged to the other side while this was the area of the wealthy.

XinFeng said, “This is Stellar Night Fortress?”

The old man Lei Bao replied, “That’s right, this is the real Stellar Night Fortress, those that live here are all practitioners.” As he spoke, he turned around and shouted, “Jin Da Pang!”

Jin Da Pang walked over and said, “Senior, I know, I will let my underlings pitch their tents in that forest, they won’t cross the bridge.” Normal humans were not permitted to enter Stellar Night Fortress, if they insisted on entering, then their deaths would be their own fault.

The old man Lei Bao said, “En, leave our Sha Tuo beasts here, let Wei Zheng Long stay here too, also, leave some of the others, their strength is too bad, if no one stayed here to guard, perhaps when we return, there will be nothing left.”

Jin Da Pang nodded.

Qi Tian Yao ordered the entire Wipeout team to stay, these thousand and ten thousand Lun masters was a rather formidable force even in this place, even if they were a small group, no one would dare to attack them as they please, as for the people at the campsite outside, they wouldn’t even think of it.

Jin Da Pang ordered his men a bit few more before he left.

The old man Lei Bao led them across the small stone bridge.

A total of eight men; Qi Xuan, Hong Chen, Yan, Qi Tian Yao, Jin Da Pang, the old man Lei Bao and the siblings, entered Stellar Night Fortress.

Upon stepping foot onto the other side, ten practitioners suddenly appeared from who knows where, the head which was a Milun master said, “Who are you people looking for?”

The old man replied with an indifferent expression, “I’m looking for Tai Long.”

(Putty: Tai Lang = 泰朗 = Stellar, his name is literally the Stellar of Stellar Night fortress.)

XinFeng only understood now, the stellar of Stellar Night Fortress was actually someone’s name.

That Milun master’s face revealed a shocked expression, however he did not care to be careless, for him to directly address the head of Stellar Night Fortress, it showed that he was definitely not a simple man, he said,

“Please inform me of your name, we will pass the message.”

The old man Lei Bao said, “Lei Bao.” And did not speak afterwards.

That Milun master bowed in respect and turned to leave, the others kept their eyes on them but obviously did not have any signs of aggression.

After a short while, a group of men ran towards them, the leader of them was an old man, he laughed loudly from a distance, “Old Brother Lei, master, haha, you’re finally here, I was already wistful.”

It was a robust and hearty old man who was very famous here, he was very powerful with 5 True ring bodies, Bao Lun Ying True master, he raised a large group of practitioners, in Xi Rong land, he was a tyrannical existence.

Tai Long walked in front of the old man Lei Bao and took a closer look before spreading his arms with a big smile, the two of them hugged for a while and Tai Long asked, “Old brother, you’ve become more youthful, look at me.....my hair and beard is all white, haha.”

An old lady whose hair was entirely white came from behind Tai Long, she laughed, “Old foggy Lei, you’re not dead yet?”

Lei Bao looked carefully and could not help but shout loudly, “It couldn’t be, you....didn’t you die?”

The old lady scolded, “Stupid old foggy, cursing me when we meet!”

The old man Lei Bao laughed loudly, seemingly extremely happy, he said, “Alright, alright, I did not expect old sister to still be so full of energy, haha, hahaha.”

The old lady said, “Of course, I’m no worse than you, stupid old foggy, you left for a few dozen years without leaving a single note, what were you doing! We were worried.”

The old man Lei Bao sighed, he said, “It’s a long story, come, come, come! Feng, Yaoyao, come and meet grandpa and grandma.”

Tai Long asked, “Grandpa, grandma? E, you already have grandchildren, I didn’t know you had a wife?”

The old man Lei Bao replied, "I never had a wife!"

Tai Long said confused, "No wife? Then where did your grandchildren come from."

The old man said, "Damn it, what's with all the useless chatter, these are my real grandchildren!"

XinFeng walked forward, "I've seen grandpa and grandma."

XinYao said with a gentle and delicate voice, "Yaoyao pays her respect to grandpa and grandma."

After nodding towards XinFeng, the old lady's attention was attracted by Xinyao, she reached her hands out and hugged Xinyao as she joyfully spoke, "Aiyo, I like this kid, Yi.....what's this, this child has a single Lun attribute! Lv Lun.....this is amazing, old foggy Lei, you actually have such a promising granddaughter!"

Tai long was instead interested in XinFeng, he said, "A Silan! You....you look at this kid, single Lei Lun attributed, wa.....wa.....Ten thousand Lun master, that's right, you're called Feng right? How old are you?"

XinFeng replied, "Grandpa, I am ten years old."

(Putty: A mind fuck for me, if you remembered, they said he was 16 in the previous chapters, but suddenly, BAM! He's 10.)

There were only experts here, they of course understood what a ten year old Ten Thousand Lun master implies.

A Silan did not let go of Xinyao, she inspected XinFeng for a bit but her attention was yet again stolen by Xinyao, she said, "He should have been personally taught by old foggy Lei, a ten year old ten thousand Lun master is indeed not bad, however, I like this little girl more."

A scrawny youngster smiled as he looked at them, he walked forward and spoke, "Uncle Lei, your nephew, I, has carried out your mission without fail, however, a few of the seniors have not arrived yet."

The old man Lei Bao smiled, "You run faster than I do, hehe, Yan Wu, is your father coming this time?"

Yan Wu shook his head, "Father is not coming, but has specially sent me here to follow uncle Lei's orders."

XinFeng had noticed that the surrounding people were very respectful of Yan Wu, even Tai Long and A Silan who were seniors were very courteous towards Yan Wu, he could not help but feel curious, he did not know that Yan Wu was an expert that had condensed 4 True Ring bodies, a LunYin true master, his father was more so powerful, even Lei Bao the old man had to call him Old brother, that was a true super expert.

Yan Wu continued, "Uncle Lei, my father let me tell you that, Yi Da Tong.....maybe returning."

Lei Bao's expression immediately changed.

—

-Putty, Sign out!

Chapter 19: Suspicion (1)

Lei Bao said, "That old bastard is also coming?"

Yan Wu said, "En, he also brought a good amount of people, all powerful experts, my father wants Uncle Lei to be careful, this man is very tough."

Lei Bao replied, "I know, I know, I've fought with him countless times in the past, after so many years, I wonder if that fellow has improved....."

Tai Long said, "Old brother, Yi Da Tong has been in the limelight for quite a while, I heard that he had a break though ten years ago and has already condensed a True Ring body, he's now a rarely seen True Yin master."

Lei Bao said, "Ten years ago.....then, he has already consolidated his training, how troublesome, this old bastard....." Slight resentment was present in his tone, he seemingly was very unsatisfied.

A Silan said, "Old foggy Lei, ignore that fellow, if he dares to irk us, then we'll beat him up." As she spoke, she revealed an expression of making peace, she then continued, "Old foggy Lei.....that.....old brother lei, this kid.....I like a lot, I want to take her as my disciple, is that alright?"

The old man hesitated, he did not speak, causing A Silan to become worried, she spoke, "Old foggy Lei!"

Xinfeng's expression changes, he actually did not want A Silan to take Xinyao away, but he did not know how to stop her.

The old man said, "Old sister, Yaoyao is still young, she doesn't need to train."

A Silan tightly hugged Xinyao and spoke, "No, I want to take in this disciple, when she grows up, who knows how many fellows would want to snatch her! I'll only be at ease if I take her, I've searched for so many years and haven't met a person with good qualifications, especially someone like Yaoyao." Her attitude was extremely firm.

Lei Bao thought for a while, he was actually tempted, although A Silan

had 4 True ring bodies, her status was extremely prestigious and her sect was very strong, if Xinyao has her as a master, she wouldn't suffer.

Xinyao did not seem to dislike A Silan, she had not understood what a master and disciple relationship signified and thus so, she merely looked around happily.

Lei Bao was also unable to make a decision right now, he said, "Old sister, let's talk about this after this incident, also, you need Yaoyao's consent, if not I won't agree."

A Silan replied, "Alright, within this period, I'll take responsibility of Yaoyao's life." She also understood that she couldn't rush her, you could not force such a genius."

Tai Long said, "Brother Lei, let's go in."

The old man Lei Bao nodded, "Alright, let's go in, oh right, we still have some people outside, help me take care of them."

Tai Long waved his hand to call over a few men, after instructing them quietly he brought the crowd towards the residential area. During their walk, XinFeng noticed that a lot of practitioners have residential houses here, there were all kinds of practitioners except for human here, for people to survive here, they had to be at least a thousand Lun master.

The strength of Hundred Lun masters were within the range of normal humans, they were considered powerful humans, but were not considered as an unbeatable existence. Thousand Lun masters basically had no opponents within the range of normal humans, unless under special circumstances, they could win against all normal humans.

Thus so, thousand Lun masters are thought to be standing at the peak of the normal humans, while they are also the on lowest level amongst the practitioners. There are quite a few of the thousand Lun masters saw no hope of promotion and were more than happy to mingle with the mortals, with their strength, none of the mortals would dare to easily offend them without reason, even the rich were polite with them.

In Stellar Night Fortress, thousand Lun masters are the lowest leveled

residents, it also signified you needed to reach the level of a thousand Lun master to reside in Stellar Night Fortress, as for hundred Lun masters and little Lun masters, they had the right to enter Stellar Night Fortress but not the right to reside in it.

As Tai Long walked when seen by practitioners, they would immediately move to the side, automatically offering the road to him as a sign of respect.

XinFeng did not understand and asked softly, “Grandpa, why do they only take in practitioners here?”

The old man Lei Bao laughed, “For mortals to come.....for what? The reason why practitioners wanted to come to Stellar Night Fortress was because they could receive pointers from experts, there was lectures about practicing by experts occasionally and they would discuss questions within the aspects of practitioners.”

XinFeng was dumbfounded, “Lectures?”

The old man nodded, “Thats right, lectures, the most important thing is to develop your own influence, after a while of teaching all the practitioners will be able to absorb some people and advance to give higher leveled lectures, for the practitioners without sects, this was a very good chance for them to raise their factions strength.

XinFeng was moved, this was considered a school? Of course there wasn't the concept of a school here, but it had the various functions of a school, no wonder it attracted a large amount of practitioners.

Quickly, the crowd passed through a patch of the residential area, they entered a 3 floored brick building.

Tai long walked in front to lead the way, he did not stop at the small building, but instead kept walking, there was a field for activities and behind it was multiple large courtyards, the structure was very interesting, it was like a hive, every courtyard had the shape of a honeycomb hole, they took quite a big amount of space and had short walls as well as trees for separation, there were all identical, simple wooden bungalows.

XinFeng noticed that there were a good amount of practitioners in the courtyards, they were either mediating by themselves or discussing in a group together, he could see about a dozen of practitioners sitting together surrounding an expert who stood in the middle, they were in mists of a lecture. This gave XinFeng a larger shock, as this place seemed to be more like a research institute of a university, it had a thick atmosphere of learning and discussion.

Tai long brought the crowd to the largest courtyard, in the middle of the courtyard was a large shaded green house made with wood, it seemed extremely spectacular and it took up roughly a few hundred meter squares and had the height of roughly two dozen meters. The surroundings were completely empty, with a hundred or so humongous round wooden pillars, on it was beautifully carved ornamentation while the inside was incomparably cooling, the wooden ceiling did not completely block the sky, there were a lot of empty spots that allowed the skylight to enter.

There were wooden platforms on the ground each of different height, there were quite a lot of wooden railings surrounding it and there was also a pond on the ground with colorful fish in it swimming around.

Entering it, even XinFeng who had seen all kinds of things in his past life, could not help but praise it. This wooden hut was built too extravagantly, there were veils hanging in the surroundings gently swaying in the wind and the wooden floor was polished smooth.

“Welcome to Night Fortress!”

This structure was called night fortress, the place where Tai long resided. The central area of the structure was a three floored building, it was built into the middle of the wooden villa, it was also built with wood and similarly extremely beautiful, after entering the wooden building, Tai long spoke happily.

XinFeng was astounded, this building was extremely unique, it was like a humongous umbrella, the handle was the wooden building while the umbrella surface was the wooden hut, the terrain under it was not flat, it

had circular porches with railings, artificial fish ponds and was also dotted with vegetation and swaying veils, it was very beautiful, as for why it was called Night Fortress, he still didn't understand.

Bringing out a banquet, the crowd sat down and ate, Da pang was extremely excited by this, this was the feast of Stellar Night Fortress. Seeing the presented dishes on the banquet, Tai Long was also a man that favored good food, the specialty dishes of all kinds of places were presented, Da Pang praised himself, it was a win for him this time.

Tai long also invited a few of the important figures of Stellar Night fortress, they were mostly experts with one or two true Ring bodies, XinFeng counted for a while, there were five of them, no wonder Stellar Night Fortress had such a large influence on Xi Rong land, these men were enough to oppose a large scaled sect.

XinFeng did not care about the lengthy discussions they had, he merely brought Xinyao to eat the various weird foods available while A Silan sat beside her, she wanted to please Xinyao, a genius with good potential was hard to find, she knew this fact well, at her age she still hadn't found a disciple that pleased her.

This world contained many talented disciples, but once they were found, they would be fought over crazily, to obtain a talented disciple, none of the practitioners would let go easily, upon nurturing this kind of talent, it would be hard for others to meddle, for example XinFeng who were being nurtured by Lei Bao, even if others were to be more powerful than Lei Bao, they couldn't meddle.

Which was why upon seeing Xinyao, A Silan did not take a step away from her, while Xinyao did not understand and stuck to XinFeng, as long as she had the chance, she would follow XinFeng, giving A Silan no choice but to follow the two siblings.

A Silan kept placing dishes in front of Xinyao whilst looking lovingly at her, the more she looked at her, the more she was pleased, this little lady was definitely her inheritor, she was determined to take this girl in even if it meant that she needed to stubbornly pester them, if anyone were to

attempt to snatch her away, she would fight them risking her life, no matter what she was an expert that had four True Ring bodies her medicine were also famous, the medicine she made was hard to buy even with thousands of gold.

No one wished to fight with people like A Silan, she did not only know how to make medicine, she also were an expert regarding medical treatments, an expert of Lv attributed Lun, she was the point of focus no matter where and also one that could easily make friends, in this group, A Silan had the most friends and most of them were real experts.

Xinyao ate until oil dripped from her mouth, A Silan wiped his mouth nonstop with a handkerchief while a smile was on her face the entire time. One must know that she was an extremely powerful woman with an unyielding personality, even the old man Lei Bao did not dare to confront her.

Although the old man Leibao was speaking with the crowd, his attention was occasionally attracted by the siblings, seeing A Silan, he could not help but laugh, he did not expect the mighty A Silan to have such a gentle expression.

Although the old man Lei Bao had the highest level here, he was always alone and did not understand anything about coordination and commanding, which was why in this operation, Tai Long was the leader, he was the commander in charge of commanding and coordinating.

Chapter 20: Suspicion (2)

Tai Long said, "This time we have old brother Lei, me, Old brother Yan Wu, old sister A Silan, old brother Qi Xuan, old brother Du Hong Chen and also the experts of Stellar Night fortress; 12 true masters. Other than that, Old brother Lei also invited a few experts that haven't reached here yet. I suppose that we can have about 15-18 True masters, enough to snatch the Lun Chang space, at least we can grab the biggest share of it, even with the three strongest influential forces of Xi Rong land, we should be able to occupy the best spot."

"We need to decide on how we split it, do we go according to the old rules or do we set new rules?"

The aforementioned rule was to split the things according to the amount of effort put in to finish the job.

The old man said, "Anything's fine with me."

A Silan said, "I'll give my share to Yaoyao."

Yan Wu laughed, "Old auntie, you haven't even taken in the disciple and you're already trying to please her?" A Silan was good friends with his father, even if his level was the same as hers, he still called her old auntie.

A Silan said, "Please her? Yaoyao is my precious!" As she spoke she hugged Xinyao, laughing as she spoke, "Yaoyao, are you my precious?"

Xinyao gave her face and replied, "Yes, A Silan granny."

A Silan smiled and said, "Our Yaoyao is so sensible, Yaoyao, next time don't call me granny, call me master, okay?" She started to bewitch the little lady.

(Putty: original text was abduct, @-@)

(l3lacksheep: I really wanted to change it back. (͡° ͜ʖ ͡°))

But who knew that Xinyao wouldn't fall for her words, she said honestly, "Grandpa said, Master isn't a term to be used easily.....granny A

Silan.”

A Silan was not discouraged and spoke whilst still hugging her, “Aiyo, Yaoyao, why are you so smart, I like.” No matter what Xinyao said, she would all like it, causing Lei Bao and XinFeng to become dumbfounded.

Yan Wu said smiling, “Little sister, come with me, I’ll help you find a better master, what do you think?”

A Silan was instantly enraged, “Yan Wu, you sure are daring, how dare you poach my people!”

Without waiting for Yan Wu to speak, Xinyao said, “I won’t go with you!”

Upon hearing her words, Silan smiled, her rage gone.

Yan Wu asked curiously, “Why?”

Xinyao replied, “Brother said, I can’t go anywhere with male strangers!”

Yan Wu choked and could not speak while A Silan laughed loudly, “That’s right, that’s right, we don’t go with stinky, male strangers.”

Xinyao nodded with strength, “En!”

The old man Lei Bao asked, “Old sister, you are serious?”

A Silan replied seriously, “Of course! I am definitely serious, don’t worry, if you leave Yaoyao with me, I would definitely put in all my effort to nurture her, I definitely won’t mistreat her!”

The old man thought for a while before speaking, “She is too young now, wait till she is about 15 years old before we decide.”

XinFeng also did not wish for Yaoyao to leave right now, he had brought Xinyao up, for her to leave would be an uncomfortable thing for him, but he knew that if Xinyao were to follow A Silan, it would be better than if she followed him, there was hesitation in his heart, he did not know what to do.

A Silan spoke sincerely, “You too, know that if Yaoyao starts following me now, she would already have many things to learn, it would be better

than starting her education at 15.”

Lei Bao knew this too, it was much better to start early like how XinFeng did, occasionally, he would not know the benefits of doing certain things, but as long as he just went with it, when he truly started training, the benefits will show themselves.

“Let’s talk about this later, we need to first settle on how to split things.”

The old man Lei Bao changed the topic.

Yan Wu replied, “Let’s wait until everyone gets here, if we do it now, it may be a bit too early, they should be here soon.”

After thinking for a bit, Tai Long also agreed, “Alright, let’s put this topic off for a bit.” He then continued, “The time when the LunChang space will appear.....I already know it, there’s quite a few people there guarding it, but it isn’t time yet.”

Yan Wu asked, “Have we already sent people?”

Tai Long replied, “En, I already have a few groups of men out, they’ll report to us if anything happens.”

At this moment, a ten thousand Lun master came and walked to Tai Long’s side, after whispering at his ear for a while, Tai Long shouted, “What? How daring!”

Lei Bao already stood up, he asked, “How many people came?”

XinFeng raised his head and asked softly, “What’s wrong?”

A Silan replied, “Your men....they appear to have been attacked.”

Jin Da Pang instantly became worried, he stood up and asked, “Who are they?”

Xi Quan understood, their killings have been found out. Hong Chen’s expression changed slightly, however he wasn’t too worried, with the large amount strength of these people here, it probably shouldn’t become a huge matter.

Tai Long spoke with a heavy tone, "How many of them are there?"

That ten thousand Lun master answered, "There's 7 true masters, hundreds of Milun masters and a lot of thousand and ten thousand Lun masters."

Tai Long asked, "How many of them are from sects?"

That ten thousand Lun masters replied, "A dozen or so small sects are involved, they are the ones that were training in our territory, they say that.....a lot of their disciples were killed."

Tai long spoke, "How does the death of their disciples concern my guests, fuck, let them enter! To dare to detain the underlings of my guests, they're too daring!" He felt shamed.

Lei Bao spoke indifferently, "If my men were to be injured, old brother, you need not meddle in this matter."

Tai Long felt a chill, he knew the old man Lei Bao's temper and personality, this guy would find faults with someone who did not even anger him, now this group of idiots actually dared came to pick a fight, it was terrifying to think about what would happen, some people weren't to be angered and Lei Bao was definitely that sort of person.

"Don't worry, old brother, I'll take care of it."

Tai Long had relations with these small sects, he did not wish for Lei Bao to do anything, if he did, it was hard to even have a few survivors.

Jing Da Pang couldn't sit still, this fellow treated his soldiers preciously, last time he was enraged after two of them died, he spoke, "Let me go take a look!"

Qi Xuan and Hong Chen were worried too, "We'll go too."

Lei Bao definitely could not stay out of this matter, he also said, "Let's go together!" Although he wasn't a commander, he still had the highest rank in terms of identity, as well as his strength, which was why his words weren't treated lightly, Tai Long replied, "That's good too, let's go!" He softly instructed his underlings and brought the crowd there.

They quickly reached the bridge.

There was a confrontation between Tai Long's men and the experts of the small sects, neither of them relented and the atmosphere was extremely tense.

Jin Da Pang and Qi Xuan's underlings as well as their Sha Tuo beasts were captured by them, their ten thousand And thousand Lun masters were tied up, a few of their faces were beaten black and blue.

Tai Long took the lead and split from the crowd, walking to the bridge, he saw the tied up men and his expression became glum as he spoke, "Let them go!"

XinFeng had also followed them while Xinyao was carried by A Silan, XinFeng noticed that there were a lot of people at the opponent's side, as for the seven leaders, they were silent and had an imposing aura, it was obvious with one glance that they belonged to a generation of power, not only was their strength fearsome, they also had high ranks, that sort of pressure was rather big, upon closing on to them, their imposing aura pressurized him, causing him to stop in his tracks.

Lei Bao stood behind Tai Long, not that he didn't dare to come forward, but he needed to save some face for Tai Long and let him settle this, he would only step up if Tai Long couldn't do it. He wasn't urgent at all, this was also an after effect of his injury, after a dozen or so years of steeling himself, his personality became rather stable, unlike his previous bad tempered self, which would explode in anger easily.

Tai long felt uneasy, he was afraid that Lei Bao would not be able to hold it in and attack, he used to associate with the old man Lei Bao for a while, that period of time was extremely thrilling, many things would happen inexplicably, practitioners could glance at Lei Bao with a bit of disdain and be beaten half to death by him, as for those that irked him would definitely be killed.

But it was different this time, Lei Bao who reached the scene did not speak, he merely squinted his eyes while his thoughts were unknown, not only did this make Tai Long sigh in relief, even Yan Wu and A Silan did

the same, they all knew the temper of Lei Bao and did not expect that in this meeting, this fellow actually became calm.

Upon seeing Tai Long, the seven of the True masters' enraged expressions lightened slightly, an old man that seemed to be the leader spoke, "Old brother Tai Long, I am incapable of releasing them right now!"

Tai Long asked, "Why?"

That old man replied, "Because, we lost eighty of our training disciples.....I suspect that it was them who did it!" With this sentence of his, Qi Xuan, Hong Chen and Jin Da Pang exchanged glances and sighed at the same time, they did not have conclusive evidence, however, even if they did, they didn't care. Although, that would cause a large scale battle.

Though Tai Long was not sure of what had happened, upon hearing the deaths of so many disciples, he could not help but be shocked, but he did not think that it was the old man Lei Bao who did it, it wasn't logical. He thinks if these sects offended Lei Bao, with his temper, none of them here would be alive now, where would there be anyone here to catch anyone?

Yan Wu spoke with a heavy tone, "You suspect? With only suspect.....you dare to catch people?"

The alliance of twenty or so small sects were actually a rather large force, Tai Long suddenly experienced a headache, using strength to oppress them would be a bad decision, before he could speak, the old man Lei Bao tapped his shoulder lightly and walked forward before the crowd.

The old man Lei Bao spoke indifferently, "Everyone slap themselves ten times and let my men go, and I will then let you go!"

The opponent were all shocked, where did this crazy old man come from, did he not see the ten True masters here and the countless experts? His words were too mean, to slap themselves ten times? Who did this old man think he was?

After a while, that group of men suddenly burst into laughter, someone even commented, "Is this old man crazy?"

Someone even shouted loudly, “Old man, you slap yourself a hundred times.....haha, then I’ll let you live! Haha!

A hint of a mocking smile appeared at the sides of the old man Lei Bao’s mouth.

The sides of Tai long and Yan Wu’s mouth dropped, they knew what was coming, Lei Bao’s temper was something they knew well, this ironical smile signified that he was about to do something.
